Boston is not a question of higher piazza, and all that Charlie could say in The boy was thrown off and struck taxes. It is to determine whether benses, or whether it shall go on and ump up the debt and squander a large part of the taxes annually collected for interest. But for the large sums re quired for debt payments and interest the tax rate of most cities could be re

duced materially.

Mayor Hart's instructions to the Assessors of Boston were, "to find on the exact value of the real estate in all parts of the city. Don't be in a hurry, ne says; "make up your minds; find out what property is worth, and deal fairly with the whole people." Where a man escapes with a light assessment some one who can ill afford to pay must pay more than his share. I should not be the boast of a board of Assessors that they did their field work in three or four weeks, but that they attempted to do justice to all.

Drift of Opinion.

It is noted with some scorn that men of many varying shades of opinion are invoking Abraham Lincoln to i sustain them. Possibly many of the invokers are wrong, but the fact that they all exist is one of the surest testimonies to Lincoln's greatness .-New Bedford Standard.

Mafeking Still Holding Out With Beleaguered People Living on Short Rations.

London, May 2 .- General Roberts. the Boer column which raided southeastern Free State, is now engaged, according to a dispatch received at the British war office, in defending Thabanchu against "persistent" attacks of the

On the other hand, a dispatch from Kimberley states that a strong Boer column has occupied Windsorton, which is on the west bank of the Vaal, 35 miles northwest from General Methuen's headquarters at Boshof, and nearly north from Kimberley and south from Warrenton, and but 10 miles west of the Brooklyns Again Deleat the Bostons In

It will be seen that a large force of the enemy, strongly entrenched at this point, seriously threatens any advance north toward Mafeking. It occupies a point of observation with the river between it and the British, and stands ready to assail any weak place in the British line of communications. If British precedent is followed, Lord Roberts will feel compelled to clear this vicinity of the enemy before any advance toward Mafeking is made.

Fighting, heavier than any since Ladysmith, seems to be imminent near Thabanchu. The dispatches of Lord Roberts, dated Monday and Tuesday, show that the Boer rear guard, stubbornly resisting his advance, forced the British on Saturday and Sunday to act

chiefly on the defensive. General French, who is directing the operations, has at least 15,000 men. Some estimates give him 30,000. The Boers are estimated to be at least 6000, and possibly

AN APPALLING DISASTER. Upwards of Two Hundred Men Reported !

Salt Lake City, May 2.-An explosion occurred yesterday in the winter quarters of the Pleasant Valley company's

coal mine at Schofield, by which, acording to reports over 200 people were killed and many injured. It is reported that 137 bodies have already been rerecovered. The explosion is attributed British Communications Menaced of powder. Particulars of the disaster to the blowing up of a number of kegs are lacking.

Have Perished In a Utah Mine.

There are willing hands at work, and as fast as bodies are reached they are brought down to the boarding house and other company buildings, where they are cleaned and prepared for the coroner's inquest.

In each of these buildings are from 10 to 35 bodies. The bodies are laid out in long robes, to which are attached tags with names and addresses to await identification by relatives or friends.

The removal of bodies began at noon Tuesday and every diligence is used to get the charred and mangled remains from out of the mine. Many hundreds of men have volunteered their services having failed to catch or severely punish and as fast as one force of men is worn

out others take their places. As soon as the accident was known of ficials of the company at Salt Lake City and also the railroad company were notified of the disaster, and though the number of dead was, reported lower than it really is, it would appear that every thing by them that lies in their power

has been done. The explosion is attributed to the blow ing up of a number of kegs of powder.

HAPPY DAY FOR LABOR.

First of May Brought Shorter Working Hours to Many New Englanders.

Small Strikes In a Few Cities Still In Force.

Some Minor Difficulties Prevent All Granite Cutters Returning to Work.

Boston, May 2 .- In almost every district in New England where journeymen of the building trades have organized for mutual protection, the eight-hour day became the established scale vesterday and the conceding of this great boon on May day was with little friction, and only a few strikes. Shorter hours, and, n many instances, increased wages. have been granted here and there during the past few months, but it was not until yesterday that the full extent of this novement, so satisfactory to laboring nen, was realized.

The most widespread demand for the eight-hour day was made some weeks ago by the granite cutters throughout New England, and while at most places the demands were granted, there were few echoes of that contention yesterday. The most important of the strikes in this industry was at Barre, Vt., where the granite polishers went out, and a onference in the afternoon with the manufacturers failed to bring about a settlement. At Lowell an incipient strike was settled, but small strikes at Milford and Manchester, N. H.; Ellsvorth, Me., and at Fall River are still in force. In each instance the contention s over granting eight hours in place of

rine hours at the existing or increased There are some difficulties yet in the way of every granite cutter returning to work at once. In Quincy, where the cutters have been out for just three months, a conference on Tuesday afternoon brought no result, as the strikers rejected the compromise wage scale, although the eight-hour day had been conceded. Norcross Bros. of Worcester also were unable to settle with their cutters at the Milford quarries. Otherwise the indications are that nearly every strike

Worth Reading.

To the Editor:

I think it my duty to inform your readers of a remedy that should be in every household.

I was a martyr to Dyspepsia and Constipation and tried everything in vain. In despair I bought a ten cent package of the U. S. Army & Navy Tablets, 17 East 14th St., New York, and in three days I felt better and afterwards I bought a twentyfive cent package and now I am completely cured. Your druggist can and must get it for you.

## COURAGE QUESTIONED.

Deputy Sheriffs Have Allowed the Shaws to Slip From Their Grasp.

Probably Working North Under Cover of Hills.

May Reach Dense Forests of Maine, Where They Will Probably Elude Capture.

Middlebury, Vt., May 2 .- Two jail breakers-father and son, the Shawswho are extraordinarily good woodsmen, fugitives of the law and murderers of Deputy Sheriff Hoffman, are proving too pects of their capture are very slim. They may get across the Canadian border, and trending to the eastward go into the dense forests of northern Maine, where they will be safe from capture for a long time Two hundred or more constables and

armed citizens of the state have followed the trail, but the Shaws seem to have the greatest ease in eluding capture. It is intimated that the courage of the deputy sheriffs is open to question, for the reports from them too often agree that they almost cornered the Shaws, but when they swooped down on the hiding place the men were not there. The man hunt is getting to be a joke in some places, for the Shaws are reported at a dozen places or more, at once, and parties will dash out on false reports with greatest alacrity, only to return

Most of the people believe that the Shaws will not allow themselves to be taken alive, and this is one reason why some of the timid searchers reach the Shaws' trail just too late to get the quarry. Most of the hunting parties the past two days have started out from Middlebury, and as everyone is armed the impression would be conveyed to a stranger that there were neighborhood feuds in full blast. Very little gunpowder has been burnt yet, but some f the officers are learning more about eh hills of Vermont than they ever knew

The Shaws are thoroughly familiar with this section of the state, and they appear to be working north under cove of the hills. While they were at Ripon Sunday night it is hardly thought likely that the fugitives stayed there, yet parties are still exploring that section Mr. and Mrs. George Flanders of Rip- great work, he ruined mind and body, ton, at whose house the Shaws obtained after his genius had raised him from food early Monday morning, have not poverty to great wealth. South Berwick, Me., May 2.- The body of Mrs. Fanile Spriggs, aged 30, daughter of Thomas Abbott of South Berwick, was found in a badly mutilated condition in a barn owned by Florence J. No trace of the murderer has been found.

The body, which was found in a smoul dering mass of excelsior, was entirely nude, with the exception of corsets and shoes, the remainder of the clothing having been eaten away by the flames, and the left arm was burned to a crisp. is believed that when she left the house to go to the barn she was acquainted with the party who accompanied her. There are no evidences of a struggle i the barn, and it is generally suppose she was struck a terrible blow over the smart for half the law officers of the head, and was afterwards dragged to state. The bill will be voted upon before adjournmen The debate yesterday was memorable

because of the unexpected powerful opposition developed. Mr. Burton, chair-

man of the rivers and harbors committe Mr. Hitt, chairman of the foreign affairs committee, and Mr. Cannon, chairman of the appropriation committee threw the weight of their influen against it, not because they were oppos to the building of the canal, but because they considered that the time for authorizing its construction was not ripe. After having been under consideration for more than two months, the Alaskan civil code bill was passed by the senat yesterday. The amendment relating to the alien location of mining claims has delayed the passage of the measure for several weeks, and at times has engendered a good deal of feeling in debate Mr. Carter, therefore, yesterday wi drew the amendment and all other poi in dispute, and a few minutes later the bill was passed. It provides a full civil code of procedure for the district

During the greater part of the sessio the army appropriation bill was under various natural crises consideration. The feature of the discussion of the measure was a debate on trusts, precipitated by an amendment offered by Mr. Berry, providing that the quartermaster's department should not ourchase supplies from any recognized trust. The amendment was defeated. The bill is not completed.

Brilliant Parade In Honor of Dewey. Chicago, May 2.-People of Chicago and the western states yesterday saw and cheered Admiral Dewey, when at the head of a military and civic parade he was driven for four miles through the lown-town streets of the city. From a raised and beautifully decorated dais in a grandstand the admiral reviewed the parade in which nearly 100 different mili ary and civic organizations from a parts of the state participated. Everywhere the admiral, in the full dress uniform of his rank, was greeted cordiall by the densely packed throngs of peo le along the route. Later Admira Dewey was escorted to the Union League lub, where a luncheon and receptio was given. Last evening the admira and his aides were guests of Mayor Harrison. Nothing Decisive Appears to Have Yet Been Attained.

Boers Hoping That All the Horses of Buller's Army Will Die of Sickness.

London, May 3.-It seems more than likely that the operations of the British east and north of Bloemfontein will develop into the long-expected forward is the taking of Pretoria. Three columns apparently are converging on n stopping Maxwell, Botha's line of ommunications to the north are in danger, as one day's march would place the British astride of the roads either to Winburg or Brandfort, and Tucker's force is likely to prevent any Boer force from Brandfort coming to the aid of the burghers fronting the British. The whole movement, if successful, should result in turning the Boer position a Brandfort, where the main body of the Transvaal army is said to be, and give

the British Winburg. The immediate objective of Lord Roberts is to establish a line of British posts from one frontier of the Free State to the other at right angles with the railway, thus preventing Boer raids south ward. It is essential, therefore, that the Boers should be expelled from the rugged Thabanchu district and be forced to retire to Ladybrand.

As the result of the desultory firing Monday and Tuesday the Boers were pushed back a few miles; but nothing ecisive appears to have been yet at

The Boers continue to follow their harassing tactics. One well-horsed commando, operating in the neighborhood of Sanna's Post, interferes with the British convoys going from Bloemfontein to Thabanchu. The enemy nearly captured a convoy Tuesday, but they were driven off after a brisk fight.

Belief at Manila That Aguinaldo Has Met Death at the Hands of Hostile Tribes.

Manila, May 3.-The American gar rison of Catubig, island of Samar, which of master builders was held last night to was besieged by insurgents, consisted o only 30 men belonging to the Forty-third regiment. Twenty of the Americans were killed. The remaining 10 were rescued by Major Gilmore and a party o the Forty-third volunteers.

The Americans were quartered in the Catubig church, which the enemy, num bering several hundred men, surrounded and fiercely attacked. The American fought for two days and then the rebels nanaged to ignite the roof of the church and it burned away and finally fell upor those inside the edifice. The walls re nained intact, however, and were use as a shelter by the besieged American for three days longer, the enemy attackng the building on all sides at once. The Americans continued firing from the windows and doors of the church and did great execution among the rebels It is estimated that more than 200 of the latter were killed, many dead bodies be

ing removed from the scene of the fight After five days' resistance by the Americans a lieutenant and eight mer arrived from Laoan and engaged the be siegers, who thereupon retired. The fortunate arrival of those reinforcement prevented the annihilation of the Ameri an force entrenched in the church, who had repeatedly declined to surrende when ordered to do so by the rebels. The 10 survivors were without food, had little ammunition and were physically exhausted when relieved.

The belief is growing that Aguinalde was killed by the Igorottis. There is no proof that he has been alive since Major March of the Thirty-third regimen abandoned the chase after the Filipin eader in the Benquet mountains. Ar nsurgent officer who recently surren ered to General Young says that the nsurgent general, Tinio, also holds this belief. Braintree Observer and Reporter Is . Favorably Received by Cutters' Committee.

> The conditions for an early settleent of the strike in the Granite dustry in Quincy, which has now een on nine weeks, are very favorable and it is believed that on Monday next the men will return to work. All depends, however, on the action taken by the Cutters' Union at a mass meeting-being held this afternoon. The two committees, representing the Manufacturers and Cutters, met in conference Wednesday evening, at the cooms of the Granite Manufacturers Association in the Durgin-Merril block.

At this meeting, as announced in Wednesday's Ledger, the Manufacturers' Committee submitted a new proposition for a settlement to the The City Council should go slow in Cutters. ### The Woman's Century. The rate at which woman is forging

to the front would greatly astonish our sisters of several centuries ago. The prominent place she is occupying in the public eye proves that at last her merits are being duly recognized, and with such a propitious start over the threshold of the twentieth century she will not live up to her reputation if she does not make it in deed and in truth the "woman's century." It is not only in America, either, that she is being thus fully and publicly recognized Women abroad, though in the main more conservative than their American sisters, are nevertheless bravely imitating them in taking leading places in the business and professional world Apropos to the position accorded her in

DEMOCRATS ARE "SURE TO WIN."

Their Doctrine More Kind'y Than In '96. Toledo, May 4 .- In an interview here

William J. Bryan expressed himself decidedly regarding the coming national lection, which he declared would surely result in an overwhelming Democratic victory. "The Democratic party is sure to win," Mr. Bryan said, without the with us this year, and they are in sympathy with the principles which shall be embodied in the Kansas City platform and which represent the feelings of the great mass of American people."

"Why do you think so?" "Because every principle of the Democratic party is a positive principle, more positive than was the declaration of the Republican party in '96, and while my party has grown all the while in its firmer adherence to principle and positive declaration the Republican party is 'trekking' in just the opposite direction; it is less positive and its adherence to its own heretofore fixed declaration of faith is now quite disregarded." "What is your view on the Philippine

### Drift of Opinion.

Speaking of the war being waged upon the pneumatic tube people by Congressman Moody reminds one that the system itself should not be condemned because it promises much in the way of more speedy mail transportation and distribution. Rather should the government go into the pneumatic tube business on its own, account-Haverhill Gazette.

### Cutters Granite Strike Terminated.

## Men Likely to Return to Work on Monday.

It was good news to the people o Quincy, that the Ledger announced Thursday in an extra issued at clock. This was, that the action taken at the meetings of the Granite Cutters' Unions held that afternoon practically meant that the strike o the granite industry in Quincy, which had been on since the first of March was settled, and that the men would return to work at an early day.

The first step in the final settlemen was taken at a meeting of the Granite Manufacturers' Association Tuesday night. At this meeting a new proposi tion was drawn up, which was presented to the Cutters' Committee at a conference held Wednesday evening. This proposition was favorably received by the Cutters' Committee, who The frowsy soldiers in the not having power to settle asked an Boer army are the cause of much adjournment that the proposition British worry. ### Importance of Drainage.

Sandy and gravelly soils, allowing the thereby cause it to retain water permations always should have the water that comes to them drained off. Even the firmest rocks when dry take up and retain moisture. Ordinary soil can hold a large amount of water by means of their innumerable particles. When drainage is defective, this ground water is not freshened, and an excess of water i present, which becomes stagnant and unhealthful. If such ground be situated so that it is kept moist occasionally, the drained naturally, it is less healthful than a porous soil that is always well drained .-- St. Louis Post-Dispatch.

It Can Do for Children. [From the Parker-Patriot.] H. W. Lull, Superintendent

Quincy Schools: In speaking of Col. Parker's work want to speak from the standpoint of the mother. The average mother is not very learned on pedagogical subjects, but she has a pretty clear idea of the way in which her child is being treated; she may not know whether he is being taught according to sound educational principles or not, but she knows very well whether his teacher is kind to him; whether the child is learning reluctantly or eagerly; and whether his Tenth district for alternates than dele- school training is helping him to be a good boy or making him more difficult to manage.

Perhaps one of the strongest tes timonies Col. Parker ever received. in a life which has been a series of violent alternations of praise and blame, was the strong andunswery ing support of the parents of the children who attended the Cook County Normal school. Understand what he was doing to their children perhaps they did not, but, they knew very well that he was doing something good. At home the child's conduct spoke loudly and unmistakably of the work carried on at school. My own children went five miles every day to attend the Normal, and did it cheerfully. Not once did they beg to stay home. School headaches, early morning tooth-aches, sudden and mysterious maladies, with equally mysterious recoveries The convention met at Wesleyan after nine o'clock ceased to tempt hall, Boston, Thursday evening, and the children and perplex me. Full was called to order about 8.20 by lunch baskets in hand, with bright eager faces, they boarded the electric car. Empty lunch baskets in hand, faces still bright, no school-books dangling from limp hand at the end of a suggestive strap, they came home again, full of what they had

There was scarcely a topic of every day speech which did not call forth observations which proved that their little brains and senses were alive and extremely

But it was not only my own children, who were, of course, the best children in the world, and easy to teach, but my neighbor's children, who had their little faults, and some incorrigible children I know of, who all showed that the school was really a substitute, that George B. THE NEW THIN THINGS.

Lawns, Dimities, Organdies, Etc. and How They Are Made Up. The Lenten season has some consoling features even from fashion's point of view since sackcloth and ashes have ceased to be literal quantities. New materials for gowns and hats are already emphatically in sight, and between devotions and Lenten lectures the whole plan for the summer campaign of dress can be mapped out and all the old gowns remodeled for future

It is quite evident that the tucked skirt is going to prevail among the new thin gowns. All the new materials adapt themselves very gracefully to this mode of treatment with the prettiest possible effect, but there is nothing else quite so practical for the gowns of all kinds. First, the skirt is gored or shaped to flare at the hem, which is a very important feature, and then the tucks are stitched in up and ing directly in front, as you like. In either case they turn toward the front camp to bury the dead, the bodies are and may meet again on the side if the box plait fills in the space at the back.

GAUZE GOWN WITH PUFFED TRIMMING. Some of these cotton gowns have a decided box plait in the center of the back, while others are tucked all around and gathered directly in the center for two or three inches. One pretty model in dimity has the half inch tucks, with little spaces between them, all around except across the narrow front. They are stitched down to within about 15 or 16 inches from the hem, where they flare out. The lower portion is trimmed with three narrow ruffles of dimity edged with narrow lace and headed with a lace edged

Other skirts are tucked in groups of with wide spaces between the groups running up and down above the ruffles A band of lace insertion sometimes stripes the space between, with very pretty effect. Lace insertions without tucks are also used in perpendicular lines to trim plain and flowered organdies and encircle the skirt in two or three rows above the ruffles as well. Some of the ruffles, if not in the nar-

any, fullness at the top. Another feature of trimming muslin gowns is the use of very narrow valenciennes lace insertion, both black and white being employed in the same gown in alternate rows. It is set in around the skirt and bodice in both waved and straight lines, possibly four or five rows above three tiny ruffles

and a two inch space between them. A pretty model for gauze, mousseline or point d'esprit has a transparent lace yoke and sleeves and full puffings, which stand out after the manner of a

The new fancy waists hold their own amazingly well as regards novelty and beauty. It's plain that the limit of these economical articles of dress has not yet been reached.

Skirts and shirts of the same material will be worn this summer, and it is certainly a pretty fashion for the morning, much cooler and more becoming than a wool skirt.

Embroidery on chiffon and other thin materials is a great feature of the new trimmings. Open embroidery, lace, beads, gold and silver thread and silk are all employed.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning May 6-Comment by Rev. S. H. Doyle, Topic.-How Christians grow.-Mark iv, 26-29. THE PARABLE.

Christian growth is here illustrated in the parable of "The Growth of the by day, the seed meanwhile growing Of the special subcommittee under he knows not how. First appears the

THE INTERPRETATION. The sower is Christ and His ministers; the soil is the human heart; the seed is the word of God; the growth is spiritual development; the fruit is Christian character; the harvest is at the end of the world, when at the second coming of Christ the harvest shall be gathered in. The only place where there is any difficulty in the interpretation of this parable is in reference to the man who plants the seed. It must refer to both Christ and His ministers. It cannot be said of Christ that He does not know how the seed grows, nor can it be said of man that he gathers the harvest; hence the man who plants the seed must include both Christ and Christian workers. It is well also to remember that leaving the seed to grow alone does not mean careless neglect. It is its nature to grow unaided by man. The seed must be planted; it must be harvested, but it possesses within itself the principle of development and growth. After the sower had planted the seed it would have been useless for him to have worried day and night over its growth. He was plant. Growth must take place irrespective of the planter.

Lord Kitchener arrived at Brandford at noon, and Lord Roberts at dusk. As an immediate result of the success ful conclusion of this operation the enemy are leaving the hills east of Thabanchu, retiring to the north to unite with the other Boer forces concentrating at Winburg. Some are said to have retired to the southeastward, toward Wepener. Brandfort is the terminus of one of the main roads which leads to the Drakensberg passes, and if Lord Roberts succeeds in capturing Winburg, which is likely to be his next objective point, he may be able to join hands with Buller and make a determined opposition south of Kroonstad too serious a proposition for the Boers to consider Judging from past events, the Boers operating east of Thabanchu will, by reason of their great mobility, be able t escape by retiring northeast toward Bethlehem, even if Roberts takes Winburg by a quick dash. ### WOMAN'S WORLD.

A FAIR CONFEDERATE HONORED BY THE STATE OF KENTUCKY.

Using Her Friends-Her Success In Architecture - Where Women Are Adents-Women's Work and Wages. Attractive Window Boxes,

Miss Phil Pointer of Owensboro, one of the fairest of Kentucky Confederate daughters, has been chosen to represent that state as sponsor at the national reunion of Confederate veterans at Louisville May 30 to June 3. She is the daughter of the late Phil Pointer, whose name is well known to veterans who wore the gray throughout the south, and is one of the handsomest young daughters of the Confederacy.

Miss Pointer is a brunette of great personal beauty. Her figure is graceful and her manner that of the noted southern belle. She has for some time been connected with The Messenger, published by Hon. Ury Woodson of Owensboro, and her work as a writer has attracted attention. Miss Pointer accompanied Miss Lewis of Georgethere. The meeting of the grizzled veterans will be the largest in the history of the association. - Cincinnati

### Using Her Friends.

Society girls who have turned dressmakers, milliners, etc., have a certain advantage over their professional rivals in that they have opportunities to create a favorable impression of their own handiwork by manipulating publie opinion. A pretty and popular young person, who, while she utilized her mantua making talent in turning an honest penny, by no means relinquished the social pleasures to which she had been accustomed, recently called the attention of her partner at a dance to a pretty gown worn by one of her friends.

"Do you like Nellie M.'s dress?" she asked.

"Yes." he said doubtfully. "I do not say it was nice.' "Nice!" she exclaimed indignantly.

### Her Success In Architecture.

Every little while there comes the news from some part of the country that a woman has succeeded in entering the demain of some profession the r gateway of which has hitherto been made to look cheerful and trim with editor of The Philadelphian, a literary r closed to the sex.

r forth a woman who, in the profession she has chosen, is not only doing work remarkable for a woman, but work that would be just as remarkable were it done by any one of what is called the stronger sex.

Her name is Josephine Wright Chapman, an architect, and from her workrooms, at 9 Park street, have come of the most successfully beautiful buildings.

### Where Women Are Adepts.

General William R. Merriam, director of the census, has put his foot in it He has decided that women are better fitted to do the tabulating work than men and has so notified members of congress. And the result of all this is there is wailing and gnashing of

The wailing isn't confined to the Republicans alone either. Democrats. oo, are howling against General Merriam's order, for the Democrats, senators and representatives, were each to have the naming of three census tabulators. The Republicans were to have six each.

The appointment of tabulators will be made June 1. Already hundreds of recommendations have been made to General Merriam. In this, the year of a congressional as well as a general election, it is not surprising that congressmen are hunting for votes. So naturally all of their recommendations are for men who have votes. There is no sentiment about a congressman who is gunning for votes.

Imagine, then, the consternation that General Merriam's letter to members of the senate and house created. In his letters General Merriam said that Chief Statistician Hunt, who has charge of the population division and who held the same position in the last census, had recommended the employment of women, because, he said, they were better qualified for the work than men, not only being more accurate, but swifter. General Merriam decided to follow Mr. Hunt's recommenda tion and therefore wrote letters to each member of congress announcing his decision. The result is the aforementioned wailing and gnashing of teeth -Washington Letter.

### Women's Work and Wages.

A practical illustration of the dis erepancy between the wages paid to vomen and those paid to men was shown in a recent experience of a Brooklyn woman with a costume tailor. She found on giving orders for a spring tailored suit that the price for making had advanced a number know much about frocks, but I should of dollars over the figure set by the tailor late in the fall, and on asking why was informed that wages had in-"Why, it is beautiful! ### Sometimes Not.

That the old time masculine bluff does not influence the modern woman is seen in a story, and a story that is the truth. It was at the time of the last convention of the Michigan Federation of Women's Clubs that the name of Mrs. Keating of Muskegon was preented for re-election to the presidency There is a Mr. Keating, as it happens, who, prior to his wife's departure for the clubwoman's convention, sought to prevail upon her to refuse the office. The sisterly persuasion at the scene of ction was too much for Mrs. Keating. however, and she was made president for a second time. Thereupon she telegraphed her husband the result, and immediately there came back the message, "Have packed my traps for the Philippines." The ruse of the jocular Mr. Keating did not work, so they say, for the only consolation he got was a terse telegram sent by the Michigan Federation of Women's Clubs. It read. 'God speed you.'

### Philippine Embroidery.

Mrs. Sternberg, wife of the surgeon general of the army, has lately come into possession of the most beautiful product of the Philippines, an exquisitely embroidered pina handkerchief, which was sent her by an army officer. The drawn work and embroidery make a texture fine as cobweb and more beautiful and durable than any lace. The day is at hand when pina cloth from the Philippines, both in its fine and coarser varieties, will be in more frequent use in this country. Mrs. Mc-Kee, daughter of former President Harrison, has a dress of it with a satin stripe weave which has been greatly admired. The true pina cloth is made by hand of pineapple fiber and is more costly than silk, but very durable. The handkerchiefs and neck shawls worn by the Philippine women, made of pina cloth, covered with drawn work and embroidery, are simply marvelous.

### Servants In Australia,

EDITS A MINING JOURNAL.

Young Woman Who Has Made Success In an Unusual Field. Miss Bessie Shirley of Salt Lake City is 19 years old and pretty. In addition she is the first woman in the country to own and edit a mining journal. Miss Shirley is a Texas girl, ago. After looking over the field in the mines of that region of the country

needed a journal of their own, which she immediately proceeded to start. In the interests of her paper Miss Shirley makes regular weekly trips to the principal mining centers and is said amall right. I cannot thank you to enjoy the confidence of the miners to a remarkable extent. She makes it a point to personally explore the new mines opened in her territory and declares that she thoroughly enjoys her journeys made hundreds of feet beueath the surface of the earth. Her paper is successful from a financial standpoint and is said to have considerable influence in mining circles.

### Mrs. Edwin Markham.

The wife of the poet Edwin Markham was Miss Anna C. Murphy, a teacher in the public schools of Los Angeles. She is not without reputation in the west as a writer of juvenile poetry and is known as a lecturer. She has given some study to the early missions of California and is said on the platform to handle the subject attractively.

But it is as a compiler of textbooks that she is best known, according to Literary Life. The state of California makes its own textbooks. To Miss Murphy was given the distinction of being appointed by the state to select and edit its readers. She brought to the work literary discrimination of so high an order that it attracted marked attention in educational circles. She is well known in the literary society of San Francisco and Sacramento, where she met Edwin Markham long before he gave indications of being the poet of the hour. It was while teaching two years ago in the university at Oakland that she married the author of "The Man With the Hoe."

### How Actresses Find Diversion

Among actresses first we find that Sarah Bernhardt has a taste for painting, sculpture and eyeling, summer she delights in fishing, boat ing, tennis and literature, sometimes also in cliff scaling. Ellen Terry is less times in a quarter, when the time is ambitious, for she finds sufficient disextended to 12 hours, provided that the traction in reading, driving and yachtmaking of a reception gown or what tive days. On the other hand, the bill likes going to the theater on an off provides that neglect of duty by a night to see what her brothers and sisters in art are doing. She also is passionately fond of flowers, loves music and enjoys a game of golf. Mrs. Brown-Potter, although she made such a wicked Miladi, amuses herself in a sufficiently innocent way, for she passes much of her time raising flowers and is fond of all outdoor pursuits. Miss Ada Rehan cycles a good deal, reads much and loves travel. Olga Nethersole is devoted to dogs, rides a cycle, plays golf and studies botany for her pleasure. Cissie Loftus, when she is not cycling or swimming, collects autographs and photographs.

### Sealing Wax Revival.

The use of sealing wax has become so generally fashionable that before long it may be considered vulgar to seal envelopes with gum. Who knows To the Editor: but there may be a revival, too, of those mysterious love signs which were rampant in the good old days of yore? Sixty or more years ago a flaming red wafer was used by a despairing lover when sealing a letter to indicate a distressed and bleeding heart; a yellow one when jealousy was rankling in his breast; a black one indicated anger everything in vain. In despair and resentment; a green one, fickle- bought a ten cent package of the ness; a violet one, faithfulness and U. S. Army & Navy Tablets, 17 constancy, and a blush pink, blissful contentment and happiness. Quaint old seals engraved with mottoes, with in three days I felt better and erests and monograms, have become much sought after, and the most fascinating of all is the old fashioned set of seven seals with a motto for each completely cured. Your druggist day in the week.

As a means for increasing the

efficiency of teachers and so of the schools, the introduction of expert superintendence ranks in importance with the establishment of normal schools. Our superintendents are not all Colonel Parkers, but they are devoted, enthusiastic persons ready to follow in the path made luminous by those who have gone before, and like their exemplar, diligent seekers after better ways wherever such may be found. Many are today filling places of eminence with marked ability and distinction as teachers, authors and superintendents, who got their inspiration from Colonel Parker while teaching in the schools of Quincy. We rejoice to know that the source of that inspiration is not limited to the narrow field favored by its early operations, but that its influence is broadened to the continent and beyond, that it has not only a happy past and present but a hopeful and glorious future.

Most cordially yours, GEORGE A. WALTON.

> Clark University, Worcester, Mass. Feb. 20, 1900.

Supt. H. W. Lull,

Dear Sir-I regret that I shall be inable to attend the twenty-fifth anniversary of Colonel Parker's work at Quincy.

It marked the inception of one of the most important educational movements in the country. Colonel Parker has always been a leader and a light, and what is perhaps better most wholesome ferment. His face has always been steadfastly set towards the promised land and he has always stood for the best and for the future, for placing the spirit above the letter, and represents more to my mind than does anyone else during the quarter of a century, the leading influences of "the new education in the lower schools.

Buying a piano is serious business. It's the most costly article of furniture in any house, and more than two-thirds of the piano buyers in the world rely wholly on what some one tells them. You remember the old saying, "A life of regrets is the most miserable of all lives to live," most miserable of all lives to live."

It's all right to go to Boston, look around, and get posted, but you'll make the greatest mistake of your life if you buy a piano without first getting our price. Of course you realize there are fabulous profits in pianos. Here is where we are of service to you.

We carry the McPhail, Hallett & Davis, Famous Kohler, Jewett and Gibson Pianos in stock.

Yours truly,

For Women. Dr. Tolman's Monthly Regulator has brought happiness to hundreds of anxious women. There is positively no other remedy known to medical science, that will so quickly and safely do the work. Have never had a single failure. The longest and most obstinate cases are relieved in 3 days without fail. No other remedy will do this. No pain, no danger, no interference with work. The most difficult cases successfully treated through correspondence, and the most complete satisfaction guaranteed in every instance. I relieve hundreds of ladies whom I never see. Write for further particulars. All letters truthfully answered. Free confidential advice in all matters of a private or delicate nature. Beat in mind this remedy is absolutely safe under every possible condition and will positively leave no after ill effects upon the health. By mail securely sealed, \$2.00. Dr. E. M. TOL-MAN CO., 170 Trement St., Boston Mass.

## ADVANCE OF ROBERTS

Not Impeded by Boers, Who Appear to Be Retiring In All Directions.

Conjecture as to the Whereabouts of French's Cavalry.

Roberts' Strategy Compelled Boers to Meet British Under Unfavorable Conditions.

London, May 8.-Lord Roberts' general advance on Pretoria, which began with a slow, careful feeling of the enemy's positions east and north of Bloemfontein, his base, has gathered headway as it progressed. It was a walk, a trot and then a gallop. He has fairly rushed the Boers out of Brandfort, Smaldeel and Winburg with but slight loss to himself when compared to the magnitude of the movement and the understood opporunities for defense offered by the roken country through which two at least of his columns had to operate. The Vet river has been crossed in several places where the Boers held the op-

The Boers are everywhere retiring before the British, except on the Natal frontier and at Mafeking, to the inner circle of their defenses. They appear etermined not to fight until the Kroonstad hills are reached.

The Journal says: There is good news for Boston house holders in what accompanied him. It is understood Treasurer Bartlett of the Boston Ice that these gentlemen will constitute his Company told a reporter last night, that the retail price of ice will not be raised this season. No action has as yet been taken by the company toward Letters unclaimed for week ending May 5: increasing the wholesale price, but, Dr. F. H. Burnett, Mr. Wilmore A. Winslow, judging from what Mr. Bartlett says, Mr. Chas. H. Johnson, E. K. Perkins, James it is not improbable that such action

will be speedily taken. "Our wholesale price," said Mr. Bartlett, " is \$2.50 per ton, whereas in nearly all the suburban towns and cities the price is higher, ranging from \$4 to as high as \$10. If we sell ice at the ponds, by the carload, we get more than we get for it in Boston. Since April the Boston & Maine Railroad has about doubled the freight so you see that an increase in our price is not beyond the bounds of

reason. "But there will be no increase in the price to families, which is 25 cents

It's all right to go to Boston, look around, and get posted, but you'll make the greatest mistake of your life if you buy a piano without first getting our price. Of course you realize there are fabulous profits in pianos. Here is where we are of service to you. We save you from \$50.00 to \$100.00 on regular to costs you nothing to get per hundred pounds." Mr. Bartlett says that there is harmony between the local ice companies,

# PIANOS!

Buying a piano is serious business. It's the most costly article of furniture in any house, and more than two-thirds of the piano buyers in the world rely wholly on what some one tells them. You remember the old saying, "A life of regrets is the most miserable of all lives to live."

It's all right to go to Boston, look around, and get posted, but you'll make the greatest mistake of your life if you buy a piano without first getting our price.

Of course you realize there are fabulous profits in pianos. Here is where we are of service to you. We save you from \$50.00 to \$100.00 on regular piano store prices. It costs you nothing to get

## Washington Worse Than Chicago and Detroit.

Responsible for Crime and Death.

Henry H. Faxon is more convinced than ever of the evil of cigarette smoking. In a Boston daily he finds the following New York dispatch under date of May 7-Eighteen-year-old John Garrabrant, a cigarette fiend and the embodiment of characteristics which the criminologists have pointed out as belonging to the hereditary criminal type, was the murderer of fifteen-yearold Henry Maas, whose body was found in a Jersey City coal cellar Saturday afternoon. Nine hours after the discovery of the body, young Garrabrant was in custody in West Nyack, whither he had fled. Young Garrabrant has smoked an averge of eighteen packages of cigarettes a day for a long time.

A WONDERFUL SHELL.

Facts Deemed So Important That Senate Will Consider Them In Secret Session.

Washington, May 9 .- Some facts, allost startling in their importance, were aid before the senate yesterday, in se-States navy, a shell superior in every esential quality to any now in use by any overnment. The quality of penetration ssessed by the shell is said to be so reat that no armor now manufactured the United States or abroad has sufient resistance to withstand it.

een laid aside for the day, Mr. Tillman isked for a secret session in order that e might explain to the senate why he esired the armor plate matter to be. scussed in secret. When the doors were closed, he ex-

lained that several days ago he had offered a resolution calling upon the secetary of the navy to send to the senate or its information the details of tests made by the department officials of armor plate at Indian Head; No answer to that inquiry had been received, and in all probability mone will be received. It seems that Mr. Tillman called at

the navy department and was informed that it would be unwise at this tirne to make public the details of the tests he had asked for, as it would place in the nands, not only of the senate, but of representatives of foreign governments. information that properly belonged exclusively to the United States. He was informed that Admiral O'Neill, chief of the bureau of oranance, had been conducting for several months a series of armor tests at Indian Head, the results: of which were very remarkable, prominent official of the navy department said, it is understood, that the tests of all some of armor, including the Krupp armor, had been made, with a view of ascertaining their effectiveness against a frew shell that had been invented by an officer of the navy. No piece of armor submitted to the test, it is understood, was able to withstand the test. The shell, fired from high power guns, enetrated the armor almost as bullets red frem a Krag-Jorgensen ritte would neirate green wood, the difference be- test ng that the armor plates split from the point of impact. It is said that this was true of the Krupp armon, as well as of

the other armor teshed. The shell which was so effective was not described. Indeed, the navy department is guarding jealously all details

oncerning its construction. The argument of Mr. Tillman is that with such a projectile in the possession Mrs. Hassler is in the tombs, but Mrs. "So that I can drive the other people of the government, the details of which sooner of later will become known ing to see on the street!"-Humorisother governments, it would not be a part of wisdom for the congress to enter into contracts to purchase the highpriced armor, unless it could be so im-Lowell, Mass., May 9.-At the meeting proved as to resist projectiles of the kind of the board of aldermen Tuesday night,

Feeling that more or less of the matter concerning, the tests recently made by police commissioner for a term of six the government would be used in the debate upon the armor question, Mr. Tillman suggested that it would be desirable to consider the subject in secret. The senate agreed with him, and the armon plate matter will be discussed behind closed doors.

The serrate yesterday concluded consideration of the naval appropriation for a hearing Tuesday at the county | bill, with the exception of the section relating to armor and armament. This went over until today, when it will be considered in secret session. During the morning hour a number of minor bills were passed, among them one to reimiburse various collectors of internal revenue for internal revenue stamps charged against them, but not accounted

Gotham City Fathers Will Extend a Welcome to Boer Peace Delegates.

New York, May 9.-A committee which has been working in this city in asked him to officially welcome the are now on their way to this country. The mayor was asked to appoint a committee to make preparations for the reception of the delegates and extend to mayor said he would be pleased to receive the delegates and extend to them all the courtesies of the city, but he had made it a rule not to appoint committees for the reception of foreigners, and he would not do so in this case.

Later the committee asked the board of aldermen to appoint a reception committee. The board adopted a resolution providing for a welcoming committee. The resolution as adopted declared "that est sympathy of the people of the city formerly. of New York in their noble struggle against the aggression of the powerful government of Great Britain." The resolution also requested the mayor to welcome the representatives at the city hall upon their arrival.

When the Boer reception resolutio came up in the municipal council, Stewart M. THE TABLE LINEN.

The Best For the Ordinary House hold and How to Care For It,

A thousand times better is it to have a good dinner, served on a table simply the interest of the Boer republics called covered with a shining damask cloth, on Mayor Van Wyck yesterday and the dishes and glasses immaculately clean, than a bad one served with lace peace delegates of the Transvaal who and silver galore. And money has little to do with the matter sometimes. Ordinarily the best covering for the table is the double satin damask, in

them the freedom of the city. The fair quality costing from \$2 to \$5 a yard. Coverings may cost as high as \$100, but they do not come within the range of ordinary table linen. Those patterns are best that are completethat is, bordered all around to suit the length of the table-and generally the small figures are to be preferred. Hemstitching on table linen is a mistake, as it wears badly, but the hem ought to be at least two inches deep. The naperet session, at the conclusion of the the municipal assembly of the city of kins for formal use must match the regular open session. The ordinary waitress takes such little care of table linen that it requires good common sense on the part of the receive a committee of 100 citizens to laundress to wash it properly. First of all, every stain from tea, coffee or grease must be removed before washing. Certain other marks, of iron rust or mildew, ought never to appear; but, if they do, they require separate treatsideration. "I think the council should ment. For fruit, tea or coffee stains man's health. be inoculated for hysteria," he shouted. I the cloth can be held tightly across the top of a pan while boiling water is poured over it from a height. For iron rust nothing is better than javelle water, but it must be prepared carefully, used properly and rinsed out quickly. For iron rust wetting the spot and applying salts of lemon, with good rinsing afterward, will generally be of

benefit. As for the washing, words give but little idea of what must be done. Any one who is considered competent to attempt it ought to know how to do it properly, as there are right and wrong ways to soap and soak, to rub in favor if the resolution and all the and boil, to rinse and blue. The bluing is needed to counteract the tendency of the linen toward a yallowish tint. A light wind and a warm sun are needed to dry the linen properly. It should never be hung out when the wind is

The sprinkling and folding come next, and, while the old fashioned method of stretching was of excellent service in straightening the cloth, it is not a necessity. The sprinkling must be thoroughly done till every inch is wet, and when folded and rolled the linen may stand 12 hours, but must not be dry in any spot when ready for ironing. The damp cloth, the hot iron, the strong arm and quick movement will accomplish wonders, but the pressure back and forth must be constant until the linen is dry.

Such care will easily pay for itself to any one who sees the figures and lines show like satin, and the cloth, smooth, glossy and firm, will be a delight to the eye and touch.-Table Talk.

## ADVANCE ON WINBURG

Was So Rapid That British Were Fairly Upon the Heels of Boers.

Hutton Engages In a Sharp Fight at Zand River.

Kruger Says Boers Will Remain Free. Even if British Take Pretoria.

London, May 10 .-- A dispatch to The Times from Smaldeel says: Lord Roberts has halted here to complete the railway and to allow time for the cavalry now returning from Thabanchu to take the place designed for them in the original scheme of advance. General Hamilton last week was continually in touch with General Botha's rear guard. The enemy maneuvered field guns skilfully to check General Hamilton's advance. On one occasion they masked their position so well as to icopardize the British convoy, which was saved by the timely arrival of the Highland brigade, with naval guns. The advance or Winburg was so rapid that Hamilton's advance scouts were overlapping the town before Botha's transport was clear, but owing to difficulties at the drifts, the guns arrived too late to effect the con-

voy's capture. General Hutton's mounted infantry brigade, including the Canadians, with a part of General French's cavalry, crossed the Zand river Tuesday and began to work its way cautiously along the railway northward in the track of

the retiring Boers. About 8000 horsemen were probably ngaged in the advance. General Hutton, before he was joined by a part of General French's force, had a sharp fight. This was on Monday, when he reached the river and saw the Boer con voys on the other side and pressed for ward, intending to cross and capture hem. The Boers, however, opened fire, orded the river above and below, seemingly in thousands, and sought t envelop the British. General Hutto fell back several miles, the Boers folowing until other British cavalry reinforced Hutton. During the night the Boers retreated, not further antesting

the crossing. The Boer attack on General Hutton does not indicate any such panicky conditions as have been alleged to exist among them. Nevertheless the British advance rolls on steadily. General ton have penetrated 15 miles beyond Winburg.

According to Boer advices sharp skirmishes are of daily occurrence, and there was a beisk rifle engagement outside Winburg on Saturday. From Boer sources comes also the report that in a skirmish outside Mafeking on May Colonel Baden-Powell was slightly worsted.

The Transvaal volksraad adonted resolutions on Tuesday expressing indignation at the British for not conducting the war in a civilized manner for killing wounded Boers with lances, for using armed Kaffirs under British officers and for ill treating prisoners. President Kruger, after his formal speech on Monday, said the British were prepared for war in 1896, as documents which the burghers had captured showed, but that the Transvaal, to avoid bloodshed, offered a seven years franchise and then a five years' fran-

"Great Britain still demanded war." he declared, "and the republic at length accepted the challenge. Even should the most powerful generals."

Stores are being accumulated here. Convoys are proceeding regularly to the north, and also to Winburg. General Hutton's brigade, while skirmishing yesterday, took 60 prisoners.

A dispatch to The Morning Post from Ladysmith, dated Wednesday, says: who are willing to surrender, notifying them that he will recommend all who now surrender voluntarily for greater leniency than those who continue fighting after this warning.

### STRIKERS DISCLAIM RESPONSIBILITY

For a Demonstration of a Rio'o is Nature Out-. side of Lorraine Mills at Pawtucket.

Pawtucket, R. I., May 10.-What transpired in front of the Lorraine mills last night gave every indication of a riot for the city officials to look after, and while stones and other missiles were freely thrown, during a period of about 30 minutes, the affair terminated without any serious injury being inflicted on anyone. The trouble was precipitated by an attempt of the pickets to talk with the Italian weavers as they came out of the mill, in an endeavor to induce them to remain away from the mill, and not resume operations in the places made vacant by the striking weavers about four weeks ago.

The pickets were unable to obtain any reply from the Italians, and after spirited arguments on the part of the pickets had failed to bring about the desired result, a large number of men, women and children commenced to throw stones. sticks and mud at the Italians as they were about to leave in the barge for their home in Providence. Deputy Sheriff Blanchard, who is em-

ployed by the mill management to preserve order about the premises, was so roughly handled that he drew his revolver to protect himself from assault. The barge then started slowly toward Providence, but it was again held up as Superintendent Blade of the Lorraine ils made his appearance. Everything that could be found on the ground was thrown at him by the crowd. Mr. Blade inally made his escape under guard of an officer, and Sheriff Blanchard quelled the disturbance sufficiently to enable the load of Italians to proceed to Prov-

At a meeting of the striking weavers, a vote was passed condemning the action of those who took part in the assault early in the evening. It was also declared that the strikers were not responsible for the affair in any way, but that the pickets had made an attempt in an honorable way to induce the Italans to leave the mill, and that the disturbance that followed was carried on by those not directly interested in the strike. The striking weavers voted to invoke the police to look after the Italians, as it is claimed they all carry weap-

A Harmless Revel. Oh, sing not of Olympian bowls

Let humbler brewing call our souls To wake the echoing lyres. Hail thou ancestral dame who gave, With generous heartfelt glee This recipe a life to save For good old ginger tea!

It bids the blood course warm again Through veins that once grew chill, While we forget all other pain 'Neath its caloric thrill.

So come, ye grippy and infirm, And join this pledge with me! We'll drink bad luck to every germ In plain old ginger tea.

My grandam Hebe brings in state, Still comely though mature, This cup which can't inebriate
And which perchance will cure.
She offers me ambrosia fine

In capsules, two or three, And bids me moisten my quinine With plain old ginger tea. Now, to her health another draft Falernian rare was never quaffed

To pledging more sincere!

And let the fumes inspire a lay
In praise of such as she, Who gently aid us, day by day, With plain old ginger tea! -Washington Star.

A tiny black figure at the far end, which seemed to be moving toward them, gave the scene just that little necessary note of human

contrast which made it perfect. They said good night, and the Girton girl strolled away into the purpling shadows, where she was destined to hear what she had never suspectedthat love is, after all, the only higher mathematics worth the attention of a girl with soft hands and wavy hair. Miss Bremmil walked slowly back,

thinking placidly of their little romance. Suddenly she heard footsteps at her side. Some one had come out from the trees and was pacing with her. She turned hurriedly toward the sound. A man was walking by her with a peculiarly gliding, springy step. He was very tall, with a dark and rather sinister face. He was dressed in the uniform of the asylum, only with one difference-on his head he wore a yellow cap and round his arm was a broad Land of yellow cloth.

She shrank back with a sick terror flowing round and round her heart like icy water. The man was one of the "dangerous" cases, and she was alone with him at nightfall, too far away to scream for aid. She was paralyzed with fear. Suddenly he turned on her with a swift snarl, like a treacherous animal. He caught her by the arms leaning her against it.

"I've wanted something like this for a long time," he said. She observed he man. He took a long strip of cloth from his pocket and made her fast to the trunk of the fir tree with it.

et. The avenue was now almost dark. As he came up to her a sound of singing came from among the trees, foolish, wayward singing, in a broad Gloucestershire accent. They distin-

dapple white and black for the owl, and the latter, not to be outdone in generosity, made a pair of nice whalebone boots and presented them to the raven and, not content with this, went to work upon a white dress. When the raven was asked to try it on, she merrily ran and skipped about and refused to sit still. "Be quiet a little while!" cried the

owl angrily. "If you don't, I will spill the lamp over you!"

But the raven paid no attention to the threat and continued to tease the owl.

At last, in his vexation, the owl dashed the sooty oil in the lamp over the white suit of the raven and cried out,

ROOM 201,

British Will Try to Prevent Organized Resistance Southward of Kroonstad.

ON FEDERALS' HEELS.

Roberts Pressing Botha With an Overwhelming Force.

Battle Imminent Between Steyn's Forces and Those of Rundle and Brabant.

London, May 11.-Lord Roberts' announcement last evening of the flight of the Boers from the Zand river has naturally caused considerable gratifieation at the war office, where it is now believed that he will not allow the Federals enough breathing space to reform southward of Kroonstad. It is just possible that Lord Roberts' transort may be in such condition that he fill be able to keep his troops moving so rapidly as to drive the Boers right through Kroonstad without giving them time to organize resistance in the formidable entrenchments so carefully prepared at the Valsch river. The fact that General French and the cavalry have been brought up to supplement General Hutton's mounted infantry leads to the hope in British official circles that the pursuit announced by Lord Roberts may prevent all the Boer guns and convoy from escaping.

Members of the house of con were freely betting in the lobbies last evening that Lord Roberts would be in Pretoria in two months. The ministerialists are building confident hopes upon the comprehensive plans he has ommunicated to the war office. Predictions are definitely made that he will enter Kroonstad next Monday, and it is believed that his advance is probably already reconnoitering the vicinity of Ventersburg, where the hill country be-

Beyond Kroonstad is an intricate and difficult country, and if the Boers should elect to fight, it is possible they could check the progress of the British until Lord Roberts' numerous cavalry had had time to ride around their flank and threaten their rear. From 15,000 to 26 400 is the highest es timate of the Boers under the personal

ommand of General Botha, who is said to have 46 guns. Lord Roberts is pressing hard after this force, with 65,000 men and 140 guns, and 20,000 more men are easily available. Lord Roberts' concise summaries of results are not supplemented by any upto-date press telegrams. The correspondents are confined in their narra

ives to events two or three days old so far as Lord Roberts is concerned. Presider Steyn, with 10,000 men, is reported to have been east of Thabanchu yesterday noon, and a battle was then mminent. The advance troops of General Rundle and General Brabant were being fired upon.

According to advices from Durban. dated Thursday, General Buller's army is "showing activity," but a complete news embargo is imposed upon the correspondents with him.

Parties of Boers are still holding the mountains adjacent to Springfield. During a concert for the relief of the sufferers from the Begbie works explosion, given Sunday evening at Pretoria in the Gaiety theatre, the doors were suddenly closed, and every man in the audience was commandeered. All the horses were taken from the conveyances outside.

President Kruger has released The Daily Mail correspondents, Messrs. Holl-

awell and Hofmeyer. Yesterday the foreign merchants at Lourenzo Marquez held an indignation meeting, to protest against the new regulation, whereby clothing, blankets and "bully" beef are declared contraband. Twelve thousand cases of supplies are now in bond there, and as much more is expected. Two French vessels, carrying goods consigned to Lydenburg, have been

stopped. The alarmist tone of Lord Salisbury's Primrose league speech Wednesday has been much discussed in the lobbies of parliament, and the impression is that the apprehensions of the premier are even more serious than he expressed His utterances are ascribed to the recent successes of the nationalists in France, hatred of England being one of the in France, is regarded as dangerous to

England. The Times publishes a letter from Bloemfontein, describing the Koorn Spruit disaster. The writer says this in the supreme court here yesterday was due to a "criminal neglect of the sentenced Charles Ingersoll, the de nost primitive precautions in war," and | faulting treasurer of Tompkins county, e asserts that an advance guard of a to 4½ years' imprisonment at Auburn single troop would have averted the and to pay a fine of \$5000. mishap.

night on the charge of having three wives. Weisser was discovered by his wife, whom he left in New York about two months ago, when he came here with another woman, who has helped him to conduct his business, and whon it is alleged that he introduced as his wife. Mrs. Weisser No. 1, who came from New York this week, claimed that her husband deserted her, and that he had married the other woman.

Mrs. Weisser brought with her a child, a 3-year-old boy. She said she had married Weisser four years ago. Weissen would not receive her, though he ad mitted she was his wife, and that the little one was his child. He told her to before she secured the warrant for Weisser's arrest.

Meanwhile Weisser, seeing that he the city last night, but was arrested at the depot as he was about to take a train for Lexington, Mass., and taken

to the Tombs. Mrs. Weisser claims that since she married him she discovered that he had left a wife and three children in England. She also said that the woman "Fanny," who was with her husband, had alienated his affections from her. The young woman who had charge of Welsser's restaurant says that her name is Miss Fanny Getzner. She said that she was only a partner in the business. and that they were not married.

Brooke Succeeds Merritt. New York, May 11.-Major General Merritt vesterday sailed with Mrs. Mer ritt and a party of friends on a tour that vill consume most of the summer. Genral Merritt virtually severed his conection with the regular army when he eft Governor's island yesterday, alhough, the date of his retirement, by eason of the age limit, will not be reached until June 16. Major General Brooke, who succeeds Major General Merritt as commander of the department of the east, took charge today.

Long's Chances Considered Excellent. Washington, May 11.-The Post today

says that at a conference with Senato Hanna, Governor Roosevelt reiterated hat he did not want a vice presidential nomination. The Post adds: The conerence ended with the understanding that for the present at least Governor Roosevelt's name would not be con sidered. No decision has been reached as to the man to whom the nomination shall be given, but Secretary Long's chances are considered excellent.

But One League Game.

Pittsburg, May 11.-The only feature n the game here was Everitt's wrong play in the seventh inning. Ritcher dumped the ball almost to first base and stopped running. Instead of touching the bag, Everitt tried to catch Beaumont at third. Later Beaumont scored the winning run on Tannehill's long fly. Body of Missing Man Found. Lynn, Mass., May 11 .- The body of Charles R. Smith of this city was found in the water on the harbor side of Nahant road. Mr. Smith was 65 years old. and left his home on March 7. Since his disappearance a diligent search has been going on, but without success until Thursday. There was a rope around his neck, and the other end of the rope showed that it had held a heavy rock, and he had evidently thrown himself

into the water.

Winter In the Lap of Spring. Clinton, Mass., May 11.-Several snow squalls were sufficient to make the ground white on Thursday, and it is probable that considerable damage was done to early crops. Several large raisers of asparagus report that their products have been killed. The mercury went down to 30 degrees Thursday night and water froze, it being the coldest

weather known in May for many years. Munic pal Axe Again Fails.

treaty of Paris. The present postal system is not a mere continuation of the Spanish system in new hands, but an outgrowth of the system of military posts established on the sland during the war with Spain an ome months immediately following for the convenience of our troops. The president, by virtue of his power as commander-in-chief, has made not only military, but civil appointments, for the conduct of such parts of the government machinery on the island as could be mo efficiently handled by civilians.

In pursuance of this plan, and abth president's request, the postmaster general mapped out a scheme for a Cuban postal service, which is given in outlin in an appendix to his annual report for 1899. This was adopted with som missioned to put it into execution. The conference lasted for several hours, but nothing was accomplished. The strikers' officials, it was learned, were willing to arbitrate the differences provided the proposition to do so came from the railway company. The railway officials refused to

entertain any such proposal. The riotous demonstrations on the part of the strikers and their sympathizers were missing yesterday. The suburban company operated its system under police protection during the entire day without interference and was patronized liberally by the public. The transit company ran two cars over one branch of its system, but attempted to carry no passengers. The cars were

guarded by police. Another fatality, as the result of the strike, was recorded last night. To the Editors of the Quincy Ledger: e under the supervision of a central One more we feel obliged to appeal to the Ledger, and ask the Railroad Corporation as to what they propose to do regarding the Houghs Neck line. Is the Railroad Company greater than the City of Quincy?

Are they to be allowed to build this road in a half shod, instalment and unbusinesslike manner.

They have taken ample time since the order passed the Council to construct the entire line, and place it in operation. What excuse can they have for this unnecessary delay? At the hearing before the Committee, President Graham stated that they had everything to do with to build the line at once. When he made that statement, was he aware of the fact that they did not have the ties, the poles. or the tie bolts? Is that business?

A Beautiful Story of How the Bells Found Their Way to the Banks of the Shannon.

●0@0@0⊕0⊕0@0⊕0⊕0⊕0⊕0⊕0 Nearly half a century ago, before the various provinces of Italy had been consolidated in the monarchical government, there lived in the city of Genoa a young man called Giuseppe Giovanni. For many centuries the family of Giovanni had been makers of bells and chimes

Giuseppe's father had made some of the most famous chimes that rang in Italy, but had never succeeded in accomplishing his idea. It had been his great ambition to make a set of chimes proved his downfall, and one day as Giuseppe was hard at work on an odd bell for the cathedral's chimes a litter bearing the form of his father, with a deadly stab wound in his back, was brought into the dingy little shop and set down before the son.

"Giuseppe," said the dying man, "keep out of politics and live only in your work. Strive only for your ideal, and in the end you may succeed where accomplish it.

A year after his father's death found shop. When his father died, he had for. The bench at which he was working was rough hewn, long and broad and littered with a confusion of tools, that his chimes had been sold at pubhad fastened their webs. From one beam hung suspended an enormous bell fitted with a long, slender clapper.

That night he sat before his bench capped on the end with a large brass in the little shop, his chin resting on knob. This bell was inscribed with strange characters, a relic of the last

The young Genoan had clasped was almost visibly dropping through his hands together and listened with an the trees to the west of the city of agony of intensity, straining his ears Limerick, when an old man with head for a scintilla of a flaw in the tones, and shoulders bent and leaning heavily and when the silvery tintinnabulation on a stout staff came slowly along the had died away he leaned back with a highway that led to a little ferry at the sigh of ecstatic relief.

Day after day and long into the nights Giuseppe toiled with a fervor and energy almost fanatical. He ate of a man constantly exposed to the but little and slept only when natural sun. When he spoke to the ferryman, fatigue compelled him. He became thin and emaciated, and his eyes shone with & feverish luster, but not for a single day did he give up his work. One by one his bells grew into the size and form he desired, and he gave to each its proper tone. To him they were things animate. He talked to them, caressed, petted and scoided, and each night when he ceased his labor he put them away in their allotted places with a paternal care and solicitude.

One beautiful August day Giuseppe sat at his bench giving the finishing touches to the last of his set of chimes. Nearly two years had passed since he began his work; two years, but a great change had taken place in the appearance of the young man. His face was pale and wan, and his high cheek bones and sunken cheeks gave him a deathly look.

Finally he hung the last bell on the little metal stand, fitted in his clapper and gave it a gentle swing. The him standing erect, his arms outstretchtone that followed began like the sigh of a man, worn and wearied by a life great gladness. His eyes were raised of hopeless disappointment. A drawer was opened and a bundle of cloth produced from its recess and swiftly unrolled to reveal a highly polished and properly wrought little clapper, which the young mechanic deftiy fitted in the inverted bowl of the bell interest morning the Genoan set out with one purpose—to travel the world, if need be, to search for his chimes. Day after day, week after week, month after month and year after year he trudged along from town to town, city to city, country to country, vainly seeking his chimes. Part of the time he spent in various cathedrals and churches mending chimes and ringing them, to the delight of all who lisper, which the young mechanic deftly fitted in the inverted bowl of the bell. A piece of twine was attached to a little knob on the bulb of the clapper. A gentle pull and a subdued silvery like the Wandering Jew, he pursued

The boatman helped him from the shore into his skiff and gave him his coat for a cushion on the rough hewn plank which answered for a seat. The old man raised his head feebly and looked about him. Finally his eyes fell on the spire of Hereford cathedral, and there they rested, lighting up for a few seconds with a glimmer of hope. The boatman pushed off from the shore, and slowly and noislessly the skiff made its way across. No sound above the gentle ripple at the boat's bow disturbed the silence of the evening. Suddenly the faint sound of a bell stirred the air. It increased in volume; then the note of another bell intermingled, then another and another, until the melody of a full set of chimes rose and fell in the evening stillness. Jefferies Landed Knockout Blow In the Twenty-Third Round,

Corbett Made Him Look Like Hibernians Express Sympathy With Boers and a Novice at Times.

A Clean Battle Which Showed That Corbett Is Still a Factor In the Arena.

New York, May 12.-Jim Jeffries is still the heavyweight champion pugilist of the world. He defeated Jim Corbett i the 23rd round of their fight, with ame as a sudden and startling surprise Corbett had been making a wonderfu attle. His defense was absolutely per ct, and while he was lacking in strength had more than held his own, and stoo an excellent chance of winning the fight had it gone the limit. He had not bee badly puinshed, and had managed to

J. J. JEFFRIES.

It was a clean knockout that came so quickly that it dazed the thousands of deep, alert, intent spectators and left them in doubt as to just how the winning blow was delivered. It was avowed that it was a left-hand jolt to the jaw but Jeffries himself and Referee White who stood at his side, say it was a righthand swing. There is credit for the victor and credit

fer the vanquished in this cleverest of attles. Jeffries must be awarde the laurels of victory, yet his opponen s entitled to all honor for his most won derful fight. That feature stands out in relief as the most striking one of th

Corbett emerged from a year's retirement from the ring rejuvenated and fresh. He was as fast and clever as back in the days when people marvelled at his skill. His footwork was wonder ful and his defense perfect. He outboxed his man at both long and shor range, and if he had had the strength necessary would have claimed an early victory. A hundred times he ducked inder left swings that would have ended him just as did the punch that finall; At times he made the massiv Jeffries look like a beginner in the art of offense and defense with the hands. His strategy was to jab and get away, and when Jeffries stood over his quivering form his face showed marks of the pun ishment that he had inflicted.

Corbett went down to defeat that wa regretted by a vast majority of the me who filled the hall. The money was against him, but he had a wealth of sympathy. It was probably his natura heritage as the short ender, but afte the battle had begun he won more sup port by his display of speed and skill. Jeffries won with his strength, both that strength that lies in the power of massive muscle and that strength which is the essence of vitality. He made th

pace for most of the distance, and at the end was still strong and effective. At first glance the battle may seem to detract a trifle from his reputation, fo it showed that a fast man can reach him

and get away without a return. Corbett showed to wonderous advan

tage. He was panther-like on his feet and darted in and out with confusing speed. He whipped his left into Jeffries face and was either inside or away from the punch. Jeffries kept going in, but he seemed awkward. The pace made y the champion was fast. There were murmurs of approval that

at times broadened into cheers; Corbett was outboxing his man and outpointing him with his lefts to the face. They were both fighting carefully, for while Corbett had the speed and cleverness h found Jeffries hard to get to. Jeffries fought in his crouching attitude. He quickly began to use his strength, and in the clinches threw a little of hi strength on to his opponent. Corbett showed surprising ability against him and it was long before the strength o the champion began to tell. When Corbett had saved the 10-round money there was a strong change in sentiment to ward him.

At the 20th round it looked as if Corbett would stay the limit, and popular judgment awarded him victory. He had so far avoided any serious punishment. His defense was still perfect and he was smiling and confident. He either side-stepped from Jeffries' terrible tries was hammering away, howeve The end came with the suddenness of

shock. The men had had two fiere allies, followed each time by long rang sparring, and were in together again They were both fighting fast and hard Suddenly there was a report of a sharp blow and Corbett dropped. It needed no count to tell that Corbett's hopes of the championship again were vain. The excited spectators sprang to their feet and for a moment there were roars and calls. The confusion was but momen tary, however, and in a silence that was nost remarkable Corbett was carried to

and was strong and game.

PIANOS!

Buying a piano is serious business. It's the most costly article of furniture in any house, and more than two-thirds of the piano buyers in the world rely wholly on what some one tells them. You remember the old saying, "A life of regrets is the most miserable of all lives to live."

It's all right to go to Boston, look around, and get posted, but you'll make the greatest mistake of your life if you buy a piano without first getting our price.

Of course you realize there are fabulous profits in pianos. Here is where we are of service to you. We save you from \$50.00 to \$100.00 on regular piano store prices. It costs you nothing to get our prices. Of course you realize there are fabulous profits

Dorothy Q's Entertained.

Monday was another red letter day in the history of Adams chapter. The regular monthly meeting was held at the John Adams birthplace, to which had been invited the Dorothy Q. chapter of Boston, Mrs. Chapman of Fitchburg, state regent of the Daughter of Revolution, and other State officers.

At the business meeting reports of the doings of the convention at New York in April, were given by Mrs. Titus and Mrs. Pratt.

One of the best papers ever given before this chapter, and there have been many in the past four years, was that read by Rev. D. M. Wilson of Brooklyn. N. Y., formerly pastor of the First Unitarian church of this city. His subject was "The Mansion of the Quinys: its former inmates and guests." We have never heard Mr. Wilson to better advantage. He has made a most thorough and accurate study of the old house and its associations and imparted much information that was new to the Quincy people and of great interest to the out of town guests especially to the Dorothy Q chapter named after the Dorothy Q of Holmes fame, and who was born in the old Quincy house.

At the close of his paper Mr. Wilson was heartily applauded and given a vote of thanks by Adams Chapter. regent of the Dorothy Q chapter.

The usual circular board supported by props underneath is so common that even if it were deorative or comfortable, which it is not of the suggestion are sturdy and the wood thick.

For the arms inch boards will prob ably be suitable, and, Ithough the flat pieces which form the seat might be thinner, it will perhaps be best to make them equally thick with the arms. The upright supports, of course, are much thicker, as also the pieces which support the seat underneath. Inch boards will probably do for the back.

As to the construction, the first thing Manager, Drawer 28, New Haven, Conn. necessary will be to select eight pieces of suitable square cut uprights. These will be cut down to the required length and will then be chamfered in the way shown in the illustration. The knobs above the uprights at the back could be turned if a lathe is at hand or could probably be cut out roughly with the chisel. Peace Platform Submitted to Aguinaldo and Other Filiping Leaders Were Accepted.

Manila, May 12.- A proposed pease platform for the national Filipino party has been sent to the insurgent leaders in Manila and to the insurgent generals, including Aguinaldo, in the field, by Senor Buencamino, at one time a member of the so-called Filipino Republican cabinet, who was recently liberated, and who announces that he has become reconciled to American sovereignty, and that he will devote his influence to bring about peace.

This platform declares that it is impossible for the Filipinos to exist as a nation without the protection of the United States, and that, consequently, they must recognize American sovereignty, and strive to attain, under a constitution, the atmost liberty possible.

Continuing, Senor Buencamino argues that the Filipinos are incapable of selfgovernment. He says: "In our inde pendent government the most predominant notes were abuses and immorali ties, the offsprings of ignorance and the inherited vices of Spain, by which the Filipino regime was rendered odious to our own people.'

Therefore, he contends, American cor trol is necessary to prevent civil strife. He recommends to the National Filipino party the adoption of a program embodying the following features:

First-Recognition of the sovereignty

of the United States, cessation of hos tilities, and co-operation on the part of the Filipinos in the prosecution of "bandits, who continue depredations i the name of independence. Second-A request for a declaration by the United States government, guar-

anteeing to the Filipinos personal liber ties and rights under the constitution. Third-A Filipino representative dele gation to present to the American cor gress and public the desires of the Filpinos respecting political status. Fourth-The application of a part of the public funds to the maintenance of

hospitals for sick and wounded Filipino soldiers, and for the establishment Fifth-The transfer of insurgent funds

to the American treasury. Sixth-The establishment of a permanent system of Filipino representatives to the civil commission.

Seventh-The exclusion of friars from the administration of the parishes. Discussing the outlook with the correspondent of The Associated Press, Senor Buencamino said:

"If the civil commission brings liberal ideas and will approach Aguinaldo, today the idolized leader of the Filipinos, and the other leaders still fighting, in a way that will make it possible for them to surrender and yet to retain the respect and honor of their countrymen. And be convinced that this is the then peace in the Philippines will be only a question of a few weeks.

"If the civil commission will guaran tee protection to the personal and in dividual rights and liberties of the Fil ipinos, leaving the determination of ou future political status to the United States congress, Aguinaldo will come in and will order a cessation of hostilities and will direct the surrender of arms.

"Your graceful sovereignty through out the islands is unmistakable. We and ease to you. now crave your justice and your humanitarian, lenient policy. General Otis has done much to render feasible and possible the application of the peac project, upon which I am now working.

Labor Contest In the South.

Charlotte, N. C., May 12.-Several days ago the Proximity Cotton Mill company of Greensboro shut down the mill and locked out 500 operatives in order to pre vent a strike. Labor union men from the north have been at work in that section of the state. Now it develops that the operatives will bring suit in court for their year's wages against th company. The complaint has been lrawn, and the whole state is interested

Negotiations at a Standstill.

Buffalo, May 12.-There are no in cortant developments in the strike situ ation, but the railroad officials and labo leaders are still hopeful of effecting settlements of all grievances. Nego tiations in the freight handling situatio are apparently at a standstill.

Heavy Damage by Frost.

Catskill, N. Y., May 12.-The tempera ture last night fell to 26 degrees. In consequence the fruit and berry crops in this vicinity which a week ago neve appeared more promising, have been de stroyed. The loss in this immediate section is estimated at \$100,000.

Killed Nine of His Family.

Rome, May 12.- A peasant in a village ear Arezzo, during a sudden attack of nadness, murdered nine members of his family and wounded several others Before he could be overcome he had also burned to the ground a stable filled with Gentlemen: cattle.

Another Big Job For England. Accra, Gold Coast, May 12.—Serious re

ports are current that the Ashantis are determined to throw off the British yoke that they have secured the co-operation of eight other tribes, and that they are now able to raise 50,000 warriors.

Lodge Makes a Notable Speech In Favor of Appropriation For Krupp Armor.

Washington, May 12.- During yesterday's discussion a notable speech was delivered by Mr. Lodge of Massachusetts upon the necessity of building up the United States navy without delay. away on cheap wheels The speech was delivered with the vigor made for Auction Sales, and earnestness characteristic of Mr Lodge's discussion of public questions and attracted much attention. He argued in favor of the naval appropriation bill's provision for the payment of \$545 a ton for the Krupp armor. He

The nation of Europe which should undertake to take possession of these islands and hold them, right on the road to the canal, and to make of them a great naval station, would be by that act the enemy of the United States. We could not submit to it.

"The Monroe doctrine is the greatest protection of the United States, and to that we all, without distinction of party, agree. I am by no means convinced that some European power, perhaps one of those whose navy is just now receiving such a rapid increase, may not test that A Perfect and Safe Remedy doctrine, and that we may find ourselves called open to protect Brazil or some other South American state from invasion, that we may be called upon to see to it that no European nation is established in the continent to the south. That was one question upon which the American people were agreed. He wanted the navy department to be able to proceed with the building of authorized ships. Already too much time had been lost. If the Monroe doctrine should be endangered or if our coast should be menaced, we should be prepared. If we were not prepared, he said, it would be weak excuse that we had been engaged in throttling an egregious monopoly. He urged that no further obstacle should be placed in the way of the

Rev. Edward Anderson of Quincy with deliver the address at Thayer Academy on Founder's Day, June 9.

The Old Colony, Boston, Lowell, Springfield and other Grocer and Provision Dealers unions at a recent meeting in Worcester organized an association to be known as the Retail Grocers and Provision Dealers Association of Massachusetts, the object of which is to correct trade evils and protect the public against impure and misbranded goods. Frederick Humphrey of the East Weymouth store was chairman of the meeting.

The old Hunt place on West street, bought by C. W. Clapp and N. E. Hollis, has been undergoing great changes. A new fence is being built next to the street about 600 feet long and a modern house wired for electric lights, etc., is being built. It will be one and half stories, with two bay windows. A barn has been built close by The Hunt house, which is estimated over 200 years old, will be razed.

Alverdo H. Mason met with quite a painful accident by lacerating one of his fingers severely on his printing

Fire alarm box 29 was moved Monday from Front street to corner of Elm and Commercial street and that night it was rang for a bush fire.

Former chief F.O. Whitmarsh royally entertained a number of his Boston firemen friends at his hospitable residence on Shaw street last Tuesday.

Through the kindness of Mr. T. A. Watson, the teachers of the Jonas Perkins school enjoyed a delightful and tions. highly instructive visit to the shops of the Fore River Engine Co., Thursday afternoon, May 10, from 3.30 to 5.30.

The teachers of the Pond school took lastTuesday for their semi-annual visiting day and visited the schools of Hingham, Weymouth and Brockton. The teachers of the High school took yesterday for visiting day.

.The home of Miss Susie Avery of East Braintree was the scene of a happy gathering last Saturday afternoon, it being the celebration of her twelfth birthday. Games and dancing were enjoyed during the afternoon after which a dainty lunch was served. At six o'clock with best wishes for many happy birthdays in the future, the party broke up.

The Thayer Academy team will play Groton school nine at Groton this afternoon and on Wednesday they cross bats with the Noble and Greenough team. On Saturday next they play the Hopkinson school of Boston. The two latter games will be played on the Frènch's common.

The first 15 inches from the bark of a medium seized tree-6 feet in diameter-on the north Tenaya pavement had 859 layers of wood, or 57 to the inch. Beyond this the count was stopped by dry rot and overgrown wounds.

The largest I examined was 33 feet in girth, or nearly 10 feet in diameter and, though I failed to get anything like a complete count, I learned enough from this and many other specimens to convince me that most of the trees 8 to 10 feet thick, standing on polished glacier pavements, are more than they would live forever. When killed, they waste out of existence about as slowly as granite.-John Muir in At lantie.

Stuck. "And you are stuck on your last hus-

tears. "I never was so badly stuck on a husband in all my life!" she sobbed. "I supposed he was worth a million, and he isn't worth anything!"

In our material age, the word stuck has lost much of its tenderly sentimental significance, and is mostly used, as here, in its technical commercial sense. ←Detroit Journal.

At the outset, our city charter is not an antique charter as claimed. It is one conditions similar to those that existed of the most advanced in the State, and Boston and other cities are fast adopting its prominent features-a separation of the executive and legislative departments, increase of executive power,

is partisan will not hold water. At the last city election Mr. Charles F. Merrick was elected at large as the candidate of both parties, and Mr Frederic Peirce was elected in Ward Six as the candidate of both parties. In West Quincy, which is strongly Democratic, politics were cast aside and their nominee defeated. In 1898 the city elected the Democratic candidate at large over the Republican candidate, while in Wards Two and Three the parties were united on candidates. In 1897 Dr. Hallowell was elected at large . without opposition, and Dr. Record had no rival in Ward Five, while Ward One had the only contest. Thus six of the nine members of the School Committee were elected without opposition, and the politics of some are not generally known.

Now the School department is out of politics. To make the School Committee an appointive board, as suggested by " Sixtus," would certainly tend to make it partisan.

The writer says: "When it is considered that the per capita cost of education is out of all proportion to any other per capita that one can conceive of, it appears exasperating," etc. The cost per capita in 1899 was \$18.37 on the whole number of different pupil: or \$22.07 on the average number be longing; or \$23.51 on average daily attendance. While Quincy is one of the 30 largest cities and towns in the State in population and valuation, it ranks 135 in the State in amount of money appropriated for each child between 5 and 15 years; also 131 in per centage of valuation appropriated to public schools. In comparative amount of money appropriated for each child, included in the average number belonging, the rank is 86.

Amendments to the annual appropriation order are unusual, and it may be that the cut of over \$5,000 in the GEO. W. PRESCOTT & SON. school budget will prevail, but, if so, the Finance Committee will be more

autocratic than the School Committee. Last year the School Committee economized, and the schools cost \$98,-500. This year the amount in the order is but \$98,000, although there are more children to educate, more teachers to pay, more rented quarters, more janitor service, more heating, more books and supplies needed, etc. The Finance Committee should explain

The engagement of Hon. Isaac B. However, if Mr. Allen fulfills his duties as janitor well and conscientiously, no fault need be found. FORAGE AND CLOTHES

TWO ELEMENTS OF BRITISH SUCCESS IN SOUTH AFRICA.

Battles Won by Well Fed Horses, Khaki Cloth and Climate - Prospects That the Cost of War Will Have to Be Paid by the British. [Special Correspondence.]

CAPE Town, April 10.-Forage has won several recent battles for the Britthat nosebags filled with well chopped Kimberley and did much to capture

There is much advantage in acclimatization for both men and horses, and

FEEDING EMPTY SHELLS TO OSTRICHES. this advantage is all on the side of the Boers, but care and feeding do much to overcome the ill effects of climate, and in this respect the British are mak-

ing no mistakes. A source of British strength is khaki cloth, the principal peculiarity of which is its tan shade, being in effect very similar in color to our tan shoes, which have been so popular during the past few years. Khaki, when analyzed, is very little different from the ordinary indigo blue serge, which every one is familiar with, only that it is dyed a different color. Indeed khaki represents color rather than texture, as many suppose. It is comparatively unknown, but by no means new, having been used in India for a quarter of a century. Khaki serge is simply the natural color for sandy countries.

The history of khaki is interesting and shows that the results of experience sometimes have to be revised. The British army was clothed in khaki cotton drill during the Sudan war, and it was found to serve every purpose ton drill looked as if it had come to stay not only in Egypt, but in other parts of the empire where heat had to be considered. It was speedily decided to use the fabric in South Africa and, Manhattan-There are some friends as in Egypt, in connection with woolen insomuch that it was found to be far being worn successfully. With the liam E. Rowe. heavy rains the soldiers became drench ed, the effect being that their underclothing speedily shrank into an unwearable mass.

The clothing question seemed to be a serious one to the army, but not so to the English woolen manufacturers. Woolen serges were immediately dved the khaki color and are serving all purposes admirably. At first, owing to the authorities being confronted with a lit- graphaphone. eral famine for the article, they bought up all the serges they could lay their hands upon that were undyed, and these have had to serve the purpos after being dved the desired shade The make up of the fabric consists of a is a medium crossbred, but is a woolen yarn and not a worsted. Practically speaking, the khaki cloths contracted for by the government are nothing "But of course the man who didn't more or less than an average worsted know what they were originally will serge dyed the tan shade. The governbe none the wiser."-Cleveland Plain | ment has contracted for the delivery of this cloth at 3s. 3d. per yard, 55 inches wide.

The fact is becoming apparent that the burden of the expenses of the war afire, and I just sat perfectly still and will fall upon Great Britain. Outside of the mines there are no available as sets in the two South African repub ed you to ice cream.-Detroit Free lics except the government railroads and the live stock roaming over the veldt. It looks as if the mines of Johannesburg would have to stand the expense of the war, and the mining stock is mostly owned in England. The things didn't have chafing dishes!-Chi- Boers know all this, and the idea prevails in South Africa that they will make the financial situation still worse by destroying the mines at the most critical time. With the country devastated the value of the railroads is not apparent, and the realization of money from the taxation of Boer live stock is not very tangible. After the republics are crushed there will be no government to guarantee any sort of indemnity, and Great Britain is confronted with a financial situation which promses to baffle her wisest statesmen. The Boers are taking great satisfaction in the apparent fact that the millionaire mine owners who have been the primary cause of the war will be the greatest financial sufferers from the result. CECIL HOYT.

Neighborhood Wit.

If your hands are rough, hard or chapped from the repeated washings necessary to keep them free from the office dirt, examine carefully the soap you use. If it is a cheap toilet soap, you will find that it is greasy, acrid and irritating.

Ivory Soap makes a profuse lather that removes the dirt and rinses easily, leaving the skin soft and clean.

If your office force is large there are two considerations that will recommend Ivory Soap to you. It is quick in action, saving time; and is inexpensive.

REPUTATION NOT GOOD,

Peace Proposals of Buencamino Will Have But Little Effect.

Rumors of a Contemplated Uprising at Manila.

MacArthur to Devote His Attention Largely to a Question of Policy.

Manila, May 14.-It does not seem probable that the peace proposals which Senor Buencamino, at one time a mem ber of the so-called Filipino government, has drawn up for submission to Aguinaldo and the other insurgent leaders will have much weight with the Filipinos.

Buencamino's reputation, gained in former wars, is that of a man who hurries to get on the winning side. He was in disfavor with the Filipinos even before the collapse of their government owing to a widespread suspicion of disloyalty to his colleagues.

The latest rumor of an outbreak in Manila among the natives, which was in circulation last week, was seriously discussed by some of the local papers and attracted more general attention than has usually been the case with this sort of thing.

As a matter of fact many Filipinos did leave their American employers with the apparent intention of joining some such movement. Their action, taken in connection with the arrest of several natives for carrying concealed weapons and the dispersion of several suspicious gatherings, gave color to the reports. The officials have been active in the matter, but are not inclined to think an uprising will be attempted. They believe the Filipinos, lacking in the necessary courage, especially in view of the fact that the natives feared to attempt the demonstration at the time of General Lawton's funeral, although they had made careful preparations, and many insurgents had come to Manila

for this purpose. A paper found among the captured effects of General Pantaleon Garcia asserts that the United States congress has done nothing for the Filipinos, and that, therefore, all Filipinos who are working for Americans must leave their employers immediately or suffer the penalty of treason.

One report is that the Filipino junta is endeavoring to incite an outbreak in order to show the civil commission that the insurrection is still alive. Last week General MacArthur re-

ceived a large number of officials, conye could waggle yer ears like dat?"- suls, officers and representatives of commercial bodies. THOMPSON SUSPENDED

Postmaster o' Havana and Two Subordinates Mix d Up In Postal Frauds.

No Friction With the Military Authorities, Says Rathbone.

Crookedness Appears to Have Ramified In Every Possible Direction.

Havana, May 15.-The result of the in vestigation at the local postoffice is th suspension of Postmaster Thompson who was installed in April of last year. He will remain at his own house for the

Moya and Mascaro, stamp sellers in the main office, have also been arrested, and further arrests are expected. As man as six others have been placed under the closest supervision, and they wil be arrested as soon as their services can be spared. As a matter of fact, if they were all to be suddenly relieved of duty, it would not be possible to carry on the postal department from Havana.

Messrs. Reeves and Reynolds, the auditors of the postal department, are still under arrest at their own rooms, in charge of detectives. Special quarters will, however, be prepared in some fort ress, where all the prisoners connected with the frauds will be taken as soon as

arrested. Yesterday's arrests and the suspensio of Mr. Thompson did not take place unti after dark and consequently these nev features of the case were not generally known throughout the city last evening but there is a perceptible excitemen at the postoffice, where no one knows who may be the next to be singled out. E. G. Rathbone desires The Associated Press to say that there is no truth in the eport, circulated in the United States, hat there is any friction between the military authorities and the postal department. On the contrary, the most omplete harmony prevails between them. He also says he does not consider it proper, in the present circumstances to give out interview for publication and has so answeerd in applications for personal statements that have been abled him from the United States. Mr. Sheridan will temporarily fill Mr. hompson's place. It appears that the rauds ramifed in almost every possible

rection. Even the rented boxes have been made a source of illegitimate gain. Every additional revelation increases the amazement of the Americans here. The Cubans seem to be immensel pleased. They declare that the Americans can no longer boast in Cuba of their uperior honesty when in governmen

General Woods devotes several hours laily to postal affairs, hearing the reorts of special agents and conferring vith Mr. Rathbone and others havin any knowledge of the matter. As yet is impossible to say how many person

To Direct Cuban Postal Affairs.

Washington, May 15 .- The postmaster general, after a protracted interview vith the president, announced that Joseph L. Bristow, fourth assistant postmaster general, would proceed to Havana tomorrow to take charge of the postal affairs of Cuba. The postmaster general declined to say whether or no Rathbone would be suspended. Gen eral Bristow outranks the director of posts, and the latter might operate as a subordinate, though on this point no statement is vouchsafed. Further than the announcement that Bristow would go to Havana the postmaster general said there were no new developments in the situation.

Doubtless Saved a Large Portion of the Crops From Destruction by Cold Weather.

Boston, May 15.-Following is a statement of the weather and crop conditions of New England, compiled from the reports of weather bureau correspondents throughout the section, for the week

ending May 14: The continued cool and clouded weather has been most unfavorable for vegetable growth. The severe freezes of the past week have, perhaps, wrought greater damage than the uninterrupted low temperatures of the two weeks preceding. The entire damage cannot yet be estimated, but reports affirm the loss of tender vegetables, and all fruit buds that were open. Several correspondents state that the peach crop has been ruined, and the strawberry yield reduced one-half. The fact that the season has retarded the development of the buds, perhaps, insures the safety of

other fruit. The preparation of the soil for seeding, except in the northern portion of New England, is in advance of the season. In Maine, for the past week, the ground, excepting sod land, has been too wet for plowing. In other states farmers continue to delay seeding, because of the cool nights. Of all farm products grass is making the greatest growth, yet stock on most pastures requires grain and fodder. This prolonged feeding from is becoming a source of anxiety to many.

Only a small part of the oats have been sown in Maine, and, perhaps, twothirds of the crop in New Hampshire ing has been accomplished in Massachusetts. Rye has headed in Massachusetts. The stalk is short, but thrifty. Very

little corn has been planted. The early

corn in truck gardens was killed by frost of the week. As the condition of grass becomes more apparent it is found that here and there the meadows disclose small areas void of vegetation, the accumulation of ice during the winter completely destroying the grass roots. Pastures are

backward. Apples and pears in most instances are uninjured. Caterpillars are hatching, and spraying has begun. Some of the cranberry bogs have been drained. The vines look well. Tomatoes, potatoes, asparagus, onions

It is antiseptic in character, as well as stimulating; its action upon the scalp and hair is truly wonderful, inasmuch as it has never been known in a single instance to fail to cure scalp diseases and to create a luxuriant growth of healthy, beautiful hair. It stops hair falling within twenty-four hours and brings back the natural color to gray hair in nearly every instance. It is not adye; it is not sticky or greasy; on the contrary it makes the hair soft, youthful, beautiful and glossy; keeps it in curl. It is a perfect hair dressing, and can be used by ladies, gentlemen or children as a daily toilet requisite. Its influence is delightfully soothing.

The secretary of the navy is directed to purchase five Holland torpedo boats at a price not exceeding \$170,000 each. The Gathmann gun amendment to the house bill was withdrawn by the committee, the navy department having de clared against it.

Just before adjournment Mr. Nelson of Minnesota called up the "free homes" bill, and it was passed without a word of

Senator Chandler was asked for further explanation of his charges in the senate Saturday that the Harvey armor patent is a fraud, and that the Krupp armor is without superior merit. He gave the story of the Harvey patent as

"Mr. Harvey, nine years ago, offered ome especially hardened tool steel to Captain Folger, then an ordnance officer of the navy, who suggested that he experiment in applying the hardening pro cess to armor. All that Harvey did at his own expense was to get a fittle plate three feet square and four inches thick and he brought it in contact with char coal fire at Newark, N. J. He submitted the result to Folger, who, thereupon, at the expense of the navy department, went on with the experiment. He ordered from the Creusot works a plate 6 feet by 8 feet by 10½ inches, and down here at the navy yard he went on and supercarbonized the plate, Harvey beng present and giving directions.

"Then Harvey applied for a patent. This was in April, 1891. The claim was disallowed. Eugene A. Byrnes, the examiner, rejected it. A second rejection was made on June 11, 1891, and on June 20, 1891, Secretary Tracy wrote a letter to the patent office asking to have the Harvey patent expedited. That expeminers in chief, R. L. B. Clarke and S. W. Stocking, on appeal from the primary examiner, allowed the patent, which was issued Sept. 29, 1891. So the to Waitt. monopoly had been created. Boston, May 15 .- Charles H. Cole, former president of the Globe National bank of this city, was sentenced on Monday by Judge Lowell in the United States district court to eight years' imprisonment in the jail of the commonwealth at Greenfield for misapplication of the funds of the bank. The prisoner received the sentence with little show of emotion, although it was evident that he fully realized his position, and was deeply affected.

Judge Lowell, in passing sentence said that he desired to say with reference to the suggestion of counsel that there had been no obstacles placed in the way of a speedy sentence by the defendant, that he had taken that into account in rendering judgment. When Ned Moore arrived at the secng the ground got up and discovery that the blue serge suit he walked back to his room. Later he was wished to buy was built for a man twice his size. It was his first expe rience, however, with a secondhand clothing merchant, and constitutional bashfulness made him an easy victim. Ten minutes later he left that shop the owner of a tweed lounge suit, handsome, it is true, but a combination of vellow and black aggressively "horsy" in color and pattern. He did not like the thing; in fact, positively loathed the bizarre combination of color and cut. Unfortunately the salesman said it was the thing for him Moreover, he was told to buy, and did, a pair of tan colored shoes and a straw hat encircled by a black and yellow ribbon.

When Ned Moore caught his first view of the crowded veranda of the Monmouth House, he wished he hadn't come, and after working his way through a bevy of pretty girls surrounding the main door he decided to skip dinner in the big dining room and

sup modestly in the small cafe. Twilight deepened while he dined, and there came to the ex-invalid with the gathering shadows a strange longing for companionship. Indeed the loneliness of the room soon grew painfully oppressive. Through the open window came the heavy salt air, bearof Manchester, N. He could see the after dinner crowd drifting lazily along the broad, sandy beach and, farther away, many isolated "couples," busy, any one could see, retelling that old story which renews its youth with each generation. Had the old mood still held Ned Moore in bondage he would have gone for a walk under the pines across the lake and moped and smoked. But tonight new feelings possessed him. He was dominated by a newborn desire to draw nearer the heart of life-to come in closer touch with that crowd of pretty women down by the sea. And so he paid his bill, put on his hat and was gave not only the official dinners and soon one of the multitude.

That the young woman took kindly to this embrace was quickly proved, for her head dropped against Ned Moore's shoulder, and a little hand stroked his yellow and black coat sleeve. Moreover, the young woman murmured loud enough to be heard above the rush of the surf: "Yes, darling!

Ned Moore could plainly hear his heart beating, but he couldn't, to save his life, get a grip on words. So he hugged the girl again. She seemed to read the right meaning in his silence, however, for she whispered: "Such a heavenly night, isn't it, weetheart?"

"I must say something," thought Ned Moore, and he was on the point of speaking when another man spoke for

A Mother's True Friend

"I would like to express my gratitude for the benefit received from your won-derful medicine, 'Favorite Prescrip-tion,' " writes Mrs. H. C. Anderson, of outh Britain, New Haven Co., Conn. (Box 33). "During the first month of pregnancy I could not keep anything on my stomach. Was so sick that I had to go to bed and stay for weeks. I ied different doctors, but with little enefit. I read about many being benent. I read about many being helped by using your medicine so I thought I would give it a trial. I be-gan to take your 'Favorite Prescrip-tion' in November and I had a nice little baby girl in February following. My baby weighed over eight pounds. I was only in hard labor about one If was only in hard labor about one hour and got along nicely during confinement; was up and dressed on the eighth day. I never had the doctor with me at all. My friends thought that I was sick a very short time. I think Dr. Pierce's Favorite Prescrip-tion is indeed a mother's true friend, for it helped me wonderfully."

RESIGNS AS SENATOR.

Action of Clark of Montana Causes under the surveillance of detectives. a Sensation In the Senate.

Action and Report.

Acting Governor of Montana Immediately Appoints Him to Succeed Himself.

Washington, May 16 .- There was a after the body convened, when Mr. Clark of Montana resigned his seat in the sennterest to his statement in his own deense. He read from manuscript, to which he was very closely confined.

The announcement came without proious notice and probably not a hal ozen persons in Washington knew that t was to be made. Mr. Clark struck ust at the instant the iron was hottest. Mr. Chandler, chairman of the cor ittee on privileges and elections, had ven notice that at 1 oclock he would call up for consideration the resolution manimously reported from the com mittee declaring Mr. Clark not to be

Just after the routine business was concluded, Mr. Clark quietly rose and that he wished to back out. aid, in a low, tense voice, to address the senate on a question of privileg personal to himself. Instantly ther was a buzz of expectation in the cham Senators from both sides of the main aisle hurried to seats near Mr. Clark, and a hush fell upon the assem blage as the Montana senator began to

At first his words could be scarcely heard, but as he proceeded his voice became clear, and, while at no time did he speak loudly, the intense eagerness of his utterance carried his address to the remotest parts of the chamber. His address was a sharp arraignmen

of the committee's action and repor, ar inalytical discussion of the evidence adduced at the investigation, an explanation of political and business af fairs in Montana, and a bitter exoriation of Marcus Daly and his friends. As Mr. Clark adverted to his desire

voice trembled with emotion. He al- ing on account of a terrific thunderself, he read the letter he had sent to the governor of Montana, tendering his resignation.

At the conclusion of the speech, Mr. Clark became the centre of a group of senators all desirous of pressing his the city.

Little other business of importance was transacted. The resolution relatng to Mr. Clark went over until today and the senate proceeded to the transacion of routine business. Senator Clark last night received the

ollowing telegram from Helena, Mont. nnouncing his appointment: "I have the honor to inform you that have this day appointed you to fill he vacancy in Montana's representation in the senate of the United States. end you certificate by registered mail

trust you will accept the appointment. "A. E. Spriggs, Acting Governor." Senator Clark accepted the appoint nent in the following reply to Governo

priggs' message: "I have the honor to acknowledge the ceipt of your very complimentary message, informing me of my appointment to fill the vacancy in the United States senate caused by my resignation and to nform you of my acceptance thereof fully appreciate the high complimen nplied by your action and pledge myself o discharge the duties of the office, in the interest of all the people of the state to the best of my ability."

Reports Show Substantial Progress.

Lowell, Mass., May 16.-The first day's business of the annual convention of Massachusetts' Foresters was of a routine character: Reports of the chief were satisfactory, and indicated substantial progress. In the evening the Foresters were tendered a complimen tary reception and dance.

Coffee and Cocoanut Plantation.

Havana, May 16.-Governor General further arrests in the postal frauds, because of the necessity, as the law stands, to have a preliminary trial within 48 hours after an arrest. He believes that as it is impossible for the suspected persons to escape, justice will be equally well served by keeping those accused The rumor that the postmaster at

Baracoa had been or would be arrested proves, upon investigation, to have been false. He is looked upon as merely a tool of Neely, and as having acted in Sharply Arraigns Committee nocently as the business agent of Neely at Baracoa, where he is in charge of Neely's coffee and cocoanut plantation It appears that he used \$2500 in connection with the business from the postal funds and then drew upon Neely for the amount. As Neely's funds here are now in the hands of the governor, the draft has not been honored. It is understood that there is no intention to arrest this money and may possibly lose his post. ensation in the senate yesterday soon A special agent will arrive at Baracoa tomorrow with orders to institute a thorough investigation. He will also ite. The senate accorded the closest place a lien upon all of Neely's property

"Afraid to Face the Crisis." New York, May 16 .- The Post says No news has been received of the whereabouts of Charles A. Richardson of Worcester, Mass., who disappeared from the Waldorf-Astoria five weeks ago His father-in-law, Horace W. Wilson, says that he believes Richardson to be "within 20 blocks of the Waldorf," but is in hiding "because he is afraid to face the crisis." Just what the crisis is, it is impossible to learn, further than that Richardson was one of the incorporators entitled to his seat in the senate. A of the Worcester Construction company, spirited contest over the resolution was a charter for which has been applied for expected. Every senator in the city in New Jersey with a capital of \$5,000,000 was at his desk.

character, as well as stimulating; its action upon the scalp and hair is truly wonderful, inasmuch as it has never been known in a single instance to fail to cure scalp diseases and to create a luxuriant growth of healthy, beautiful hair. It stops hair failing within twenty-four hours and brings back the natural color to gray hair in nearly every instance. It is not a dye; it is not sticky or greasy; on the contrary it makes the hair soft, youthful, beautiful and glossy; keeps it in curl. It is a perfect hair dressing, and can be used by ladies, gentlemen or children as a daily toilet requisite. Its influence is delightfully soothing.

INFLUENCE OF NEELY

Appears to Have Been Far Reaching In Connection With Postal Frauds.

Havana Postmaster Admits Misapplication of Funds.

Memorandum Given as Receipt Unexpectedly Discovered by Special Agents.

Havana, May 17 .- Four postal inspectors arrived here yesterday, and afer conferences with General Wood and Mr. Rathbone, immediately began an investigation of the postal frauds. The local papers praise General Wood for the manner in which he has handled the matter. La Lucha referring to his methods as "most praiseworthy." El Cubano, on the other hand, says: "The whole matter will finally be hushed up, or the Americans will not enjoy the idea f an expose in the department about

hich they have bragged the most." Every development connected with the frauds, it is asserted, tends to show the far-reaching influence of Neely, and every man who is placed under arrest brings to light additional facts. Each one seems willing to tell all he knows regarding Neely, while endeavoring to exonerate himself. The only person, however, who will be accepted by the authorities as a witness for the state is Carrydon Rich, who will not be placed in jail, but will be closely watched, as it is elt that his testimony is absolutely in-

Postmaster E. P. Thompson of the Havana postoffice has signed a sworn statement in which he says that Sept 1 last, being in need of money, he took from the money order funds \$435, giving his memorandum as a receipt for the

When the inspections were held the money order department to place remittances received that day, which would not have to be accounted for until the following day, sufficient to cover the withdrawn until after the inspection. This was kept up until April 7, when the special agents unexpectedly discovered the receipt, which Thompson then paid. He also admits that Charles F. W Neeley, late financial agent of posts at Havana, indorsed a bill for \$350, which American Trust company. Thompson admits other irregularities in conjunc

tion with his department.

Warrants were issued yesterday afteroon for the arrest of Postmaster Thompson, W. H. Reeves, deputy auditor of the island, and Edward Moya and Jorge Mascaro, Cuban clerks in the stamp department, and by 7 o'clock all vere lodged in the vivac, the tombs of Havana. This was done under the advice of the postal inspectors, who arrived yesterday. It is considered now that Reeves is equally guilty with Neely. The arrest of Thompson caused great surprise in the city. It is looked upon as the precursor of many other arrests General Wood felt, as did the postal inspectors, that it would be better to have the suspected persons arrested and to give them an opportunity to obtain bail, than to keep then indefinitely under close supervision at a time when the detectives are badly needed for other work As the affair stands now, Thompson's areer in the postal service must necessarily cease, even if he escapes a term of imprisonment. Moreover, his action in figures regarding samps at the request of Carrydon Rich, without notifying Mr. Rathbone, makes things look worse, even if he acted innocently in the belief that everything was correct.

Helena, Mont., May 17.-Lieutenant Covernor Spriggs' appointment of William A. Clark to fill the vacancy created by Clark's resignation is regarded as ne of the shrewdest political coups in the history of the west, in the fact that the resignation, instead of creating a vacancy, really aimed to prolong Clark's title to his seat, and that such will be the outcome admits no doubt. The consensus of opinion here is that he having resigned before the senate acted, the governor had full power to appoint.

The chief surprise, however, arises from the neat manner in which Governor Smith, who is a Daly Democrat, was trapped. When about two weeks ago he departed for California to consummate a mining deal, it was understood that Lieutenant Governor Spriggs, who is a Clark factionist, also left for the Sioux Falls Populist national convention. This left Senator Norris, president pro tem of the senate, to fill the duties of the executive.

Governor Smith planned to return beore Spriggs would be able to get back; n this way arrived two days before overnor Smith, and when Senator Clark's resignation was received promptly reappointed him, urging that the state's finances would not warrant summoning an extra session of the legislature, which meets in regular session seven months hence.

Governor Smith is being severely censured in many quarters for leaving his post of duty, while from many others Governor Spriggs is being highly comnended for his action in reappointing

CONGRESSIONAL PROCEEDINGS.

Senator Bacon Would Have Government of Cuba Left to Its Inhabitants.

Washington, May 17.-Discussion of the administration of affairs in Cuba by agents of the United States occupied the attention of the senate during the greater part of Wednesday's session.

Mr. Bacon (Ga.) spoke at length on his resolution directing the committee on relations with Cuba to make an investigation of the conduct of the financial affairs of the island. He maintained that it was the duty of congress to make the investigation called for by the resolution, because it was due the people of this country to know just how affairs in the island were being conducted, and since the disclosures of the past few days had been made with respect to the alleged misappropriation of funds in the postal section, the obligation upon congress to make an investigation was doubly heavy. He urged that the honor of the country depended upon its being able to clear away the fraud and corruption which, it was charged, had been discovered. He insisted that the government of the United States had no authority in Cuba, and demanded to its pledge and leave the government of

Something About the Torpedo Destroyers at Braintree.

Almost everybody hereabout, says the Transcript, is interested in the new navy and its development, and many have been looking forward with some interest to the launch this summer of the two new torpedo-boat destroyers which have been under construction at the works of the Fore River Engine Company at East Braintree. It was figured out that the two crafts should be ready to launch by the last of May or first of June, but the delay in receiving the steel from Pennsylvania has put the date ahead six weeks or more. What is more, it now appears that extensive changes will be made in the plant of this company before the vessels are sent into

These changes mean the construction of a new and larger plant at the mouth of Fore River, on deep water, at what s known as Quincy Point; and the practical abandonment of the present the lightship for the Cape Hatteras they are launched. What will be done therefore is to develop the new plant at Quincy Point as rapidly as possible -and it will cover about forty acres when completed-then launch the vessels now on the ways and run them down to be tied up at he new shops. Little will have to be done to the torpedo-boat destroyers but the lightship will have to be rigged and to take in some of her special machinery after being launched. The destroyers will have most of their machinery in before they enter the water.

But few articles remained unparatively few builders are qualified to take contracts for vessels of from 6000 to 15000 tons though this branch of the work is profitable. The Quincy company is going to prepare itself for aking all kinds of contracts putting in heavy machinery among other things a steam hammer for which the anvilblock alone weighs two hundred and ten tons and the whole of which required two years for the building and will be exceeded in size by only two or three other hammers in the country. The decision to make the change in location came suddenly for it had been planned at first to get over the difficulty attending the launching of the cruiser by doing a lot of special dredging and constructing new ways pointing diagonally into the river so that the craft would not strike the opposite bank when it shot into the

This piling had already been started when the decision to change, the location was made and everything in the way of development of the old works was stopped at once.

As for the vessels now on the ways the lightship is not under cover and consequently has been delayed some by the weather; but its hull is practically completed the plates are all in place and the men are ready to start now on the wooden decks. Alleged Conversation in Dutch Overheard by One Who Understands the Language.

London, May 17 .- The Daily Express publishes this morning a three-column New York special, signed by Patrick O'Connor, who crossed the Atlantic with the Boer delegates on the Maasdam, under pretense of being an Irish-American and a Boer sympathizer. As a matter of fact Mr. O'Connor understands the Dutch language, and he claims to have overheard much private conversation, in the course of which Mr Wolmarans is reported as saying to Mr.

"I think we should be careful of what We say to this man, as he may be a spy. Are you sure he is an American?" Mr. Fischer-There is no doubt of it. I can tell by his accent.

Mr. Wessels-It would never do, o course, for the British to know that we are really in the last extremity, or for of the corona with a grating spectrohim to know that we are thinking of staying in America.

Then resuming the English language Mr. Fischer began by blaming Ceci Rhodes for bringing on the war. He said: "I haven't a shadow of doubt that Sir Alfred Milner was sent to South Africa to prepare for the spoliation of the Boer republics by force, if necessary The franchise ruse was all humbus President Kruger ceded so much at the Bloemfontein conference that Milner was in mortal fear lest all his requests should be granted and lest he should thereby lose the chance of annexing the Transvaal."

Mr. Wolmarans said to Mr. Fischer in Dutch: "Do you think we had better tell him how Kruger broke off the conerence?"

Mr. Fischer-No. Mr. Wolmarans (in Dutch)-Our position just now is precisely that of Jameson at the time of the raid. He expected Johannesburg to rise to his as sistance. We expected the same of Cape Colony and Natal. We are biterly disappointed. Tell him how chreiner deceived us.

Mr. Fischer-He knows well, as well as we do, that Schreiner is loyal to Great Britain. Resuming English Mr. Fischer said:

Therefore is positively no other remedy known to medical science, that will so quickly and safely do the work. Have never had a single failure. The longest and most obstinate cases are relieved in 3 days without fail. No other remedy will do this. No pain, no danger, no interference with work. The most difficult cases successfully-treated through correspondence, and the most complete satisfaction guaranteed in every instance. I relieve hundred of a newspaper in St. Paul.

Technical Violation of Law. Washington, May 18 .- More than 1000 veteran soldiers and marines of the Civil war have filed applications to the navy department to have removed the charges of desertion which now stand against their names. This action was taken in anticipation of the bill extending indefinitely the provisions of the act of 1888 relative to what are known as "innocent desertions" becoming a law. For 10 years Judge Advocate General Lemly has been seeking to secure this legislation, and the bill has passed first one house and then the other, but only two days ago succeeded in passing both in one session. share for share.

In fixing the price of gas it is important to consider three things: operating expenses, allowance for depreciation or contingencies, and the capital charge. The decision as to what may be the proper amount to provide out of income for contingencies, depreciation, improvements, extensions, to that expenditure necessary to insure the highest public convenience, is rerely a simple matter to determine just what improvements and extension should be made out of income and

what out of a fresh capital. In carrying on a business of this kind nothing to the profits of the business, small to give fair support to fresh 200,000 marks (\$47,000.) capital if it were expended upon them. It may, nevertheless, for the public interest be the imperative duty of a company which exercises a virtual monopoly to make these extensions. Where the company's condition has Miller, carrying on business at Quincy under been such that extensions of this the style or firm name of character could be met only from new

"Apparently some of this burden must be borne by the consumers in the interest of the public as a whole. It probably will not be denied that sufficient expenditure should be made in this direction to make up for the Swansdown Flour, general depreciation which is continually going on, and which is not provided for under the name of repairs in the strict construction of that term. The company's duty to the public and its consumer in this respect will be best performed when the cost of such improvements is so divided between income and fresh apital as will be least burdensome to the consumers of gas.'

Boer Envoys Think That Their Mission to America Will Be Successful.

War Would End If This Country Should Say "Stop."

Women Are Relied Upon to Help Along Sympathy Now So Sorely Needed.

New York, May 18.-The Boer delegates were received at the city hall yesterday by Mayor Van Wyck, and, in accordance with the resolution passed by the municipal assembly, officially welcomed to the city. Accompanied by the reception committee and a delegation from the South African club, the delegates drove to the city hall, where they the municipal assembly and the mayor were awaiting them

As the delegates reached the city hall a large crowd pressed around the carriages and cheered. When the delegates entered the mayor's office Mr. Van Rensselaer, chairman of the reception committee, introduced each of the delegates to the mayor, who said:

"I am delighted to welcome you to the city of New York, and to assure you that in America you will receive a cordial welcome from the liberty-loving people of this country. Never since I have been in the mayor's office has a more pleasant duty been discharged by me than this one to welcome you on behalf welcome from the people.

Delegate Fischer said: "This is to us an occasion of pleasure and of pride. We believe that no people can under stand what it is to struggle for freedom except a people which has gained its freedom by such a struggle. The reception that has been given to us comes from all classes of people. We cannot think that the mission to seek peace for ur country-peace with honor-will be insuccessful. We hope we shall obtain the objects of our mission, and we are This reception by you, Mr. Mayor, is an honor which we will remember. The small liberty-loving people will think the better of their big brother. We think we will come well out of the struggle. We have been told that 90 percent of the people of America sympathize with us. We want to convert the other 10 percent by simply telling the truth. We hope that a free people will not have appealed to a free people in vain.'

Alderman Kennedy then read an address, prepared on behalf of the municipal assembly, welcoming the delegates Then Delegate Wessels said: "We have come to tell the free people of America that we mean to win and to re-Allentown, a murderer, confined in the row; if not tomorrow, we will keep on call it a war. Over 20 years ago an American civil engineer, who visited Cabecera, in Venezuela, was asked by a deputation of the inhabitants, who had heard of his skill as a surveyor, whether he thought a canal could be made from their village to Provecue, which would save a very long river journey. He visited the district and found that by taking advantage of two small streams a canal of about a league would be all that was necessary.

The committee were delighted with this report, and they begged the surveyor to write an official letter to the government on their behalf, asking that they might be permitted to begin the work at once.

Ten years after this the surveyor was again at the village of Cabecera, and the first question asked him was: "Do you not think a canal could be nade from here to Provecue?"

On his informing them that he had The stories of the affair as related by immense tracts of land in Africa and before and had taken some time and trouble about the matter, the chairman replied that on account of politics, the when you can get a death of his father, etc., the govern ment letter had probably been over looked. People Throughout the British Empire Hear Welcome News From Mafeking, defending the pass.

Relief of Brave Garrison Is Accomplished at Last.

Important Official Announcements of Operations Elsewhere in the Field.

London, May 19.-Mafeking has been relieved. A dispatch from Pretoria, mineral products. lated May 19, says: "It was officially announced today that when the laagers and forts afound Mafeking had been severely bombarded the siege was abandoned, a British force from the south taking possession of the place."

morning troops of young men were promenading, singing and cheering; and there were crowds in front of the Mansion House, Mariboro House, the clubs on Pall Mall and the war office, and in Pariament square, waving hags and joining in the national airs

Sober, phlegmatic London i beside itself with emotion. . Gusts of patriotism have set the town quivering twice or thrice before during the war; but nothing has quite equalled last furious demonstrations. It was a curicus thing for the onlooker to see solemn grey-haired men toss their opera hats cheers when a wreath-crowned banner, with the portrait of Colonel Baden-Powell on it, was borne along Picca čilly. Women in broughams waved Union Jacks out of the windows. Conventional family parties stopped at street corners to take part in singing "God Save the Queen" and "Soldiers of the Queen." Colonel Baden-Powell's brother in London has received a telegram from a Dutch friend in Pretoria saying that Mafeking has been relieved.

Ten thousand people stood in front of Mrs. Baden-Powell's house in St George's place, cheering and singing and a score of cabs brought congratula tions. Miss Baden-Powell, the colonel sister, said: "The same tale has been brought us many times during the last anxious months. The war office has promised us the earliest information We only hope it is true."

In unrestrained jubilation the prov nces were not behind the metropolis Although London had the start by a few minutes, the great industrial centers and surrounding towns suddenly burst into patriotic demonstrations. Bells clanged in their steeples; village bands turned out and people gathered in the squares to chant fervidly "God Save the

From all parts of the empire comes the same story. Bombay, Hong Kong, Colombo and the Australian and Canadian cities are rejoicing. Continental cities, as the press telegrams abundantly testify, received the news sadly.

The relief of Mafeking has had the effect of suspending for a moment interest in the operations elsewhere in the field of war. Nevertheless vesterday brought important official announce ments. Lord Methuen entered Hoopstad on Thursday. He is now 70 miles from Kroonstad and 50 from Bothaville. General Buller entered Newcastle Thursday evening. Lord Roberts is not dle. While waiting for stores at Kroonstad he is using his mounted mer to search a wide tract of country. Business In Summer Goods Somewhat Helped. Industrial Situation Shows Improvement.

New York, May 19.-Bradstreet's re view of trade says that continued dullness in many branches and a further shading in several staple lines constitute the leading features in the business Fituation this week. The weakness of Leonard Farrar, in the neck, but not have been invested in the Argentine reprices is displayed in lower quotations for corn, pork, butter, cheese, wool and cotton, among the great agricultural products, and petroleum and lead among

The jobbing demand for boots and shoes is quiet, but manufacturers are firm in their demand. Leather is dull, and some shading in hides is re ported at the east.

The iron and steel situation is no stronger, and shaded prices fail to develop much new business.

The industrial situation on the whole is rather better than for some time past, in that new disturbances are fewer and some old ones have been settled up. Particularly good trade accounts comfrom the Pacific coast, which is expelencing activity both in the Asiatic export trade and in the outfitting of gold seekers to the Cape Nome region. The real arguments are all in favor of an increase over 1899, and some way should yet be devised for increasing the amount as it now stands in the appropriation order. Last year the expenditures of the School Committee amounted to \$98,525.00. This year a total of \$103,290.00 was asked, and only \$98,000.00 voted. The majority of the City Council favor more and they should rule. Why not introduce an order at the next Council meeting appropriating \$2,000.00 for rent of outside quarters, furnishings, and miscellaneous expenses, the amount to be raised by a loan. At the same time an order might be passed exempting water tax. It cost the schools last year \$300 for water.

A. A. Linscott's jewelry store. He leaders in the march to the lower most picturesque. A veranda extended across the front of the building, with a handsome gabled porch to emphasize the main entrance. The open balcony above in the second story affords a pleasant view in the summer time.

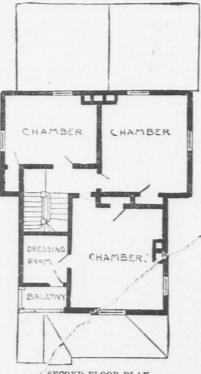

The special features of this plan are the very convenient arrangement of the principal rooms and the location of the bathroom. From the porch you enter the staircase hall, which communicates di rectly with the dining room, parlor and library. Underneath the stairs is a closet, which is indispensable for coats, etc. The parlor and dining room are separated by sliding doors, and the library is shut Ex-President Dr. T. H. ### 35 Cents Average.

Now comes the Barry Daily Times under date of May 17. and does declare relative to the Barre bill as follows:

"The bill as finally agreed to provides for an eight hour day with a 35 cents average per hour pay and an increase of 16 2-3 per cent. over the old bill of prices. The agreement is to run three years from March 1st. The agreement also contains a clause requiring an indenture from apprentices.

Good morrow to the day so fair,

Good morning, sir, to you; lood morrow to mine own torn hair, Bedabbled with the dew.

Good morning to this primrose, too, Good morrow to each maid That will with flowers the tomb bestrew Wherein my love is laid.

Ah, woe is me, woe, woe is me! Alack and well a day! For pity, sir, find out that bee Which bore my love away.

I'll seek him in your bonnet brave, I'll seek him in your eyes; Nay, now I think they've made his grave I' th' bed of strawberries.

I'll seek him there; I know ere this The cold, cold earth doth shake him, But I will go or send a kiss By you, sir, to awake him.

Pray hurt him not! Though he be dead, He knows well who do love him, And who with green turfs rear his head, And who do rudely move him.

He's soft and tender (pray take heed). With bands of cowslips bind him And bring him home! But 'tis decreed That I shall never find him. -Robert Herrick.

ONLY A LAUGH.

Only a laugh, but the joy of the hours in it,

Flooding with sunshine my poor little room,

Only a laugh, but I know well whose choice it is

Oh, I can guess whose the lips that can chaff,

Whose is the smiling mouth, whose bubbling voice

Tinged with the darkness that solitude grows, Most of the brightness missed, most of its glad

Most of its tenderness chilled by the snows.

Oh, were there love 'twould be sweeter by half'.

### AN INJUNCTION ISSUED Restraining St. Louis Strikers From Interfering With the Running of Mail Cars.

St. Louis, May 21.-For one week at least the striking employes of the St. Louis Transit company will be face to face with the federal authority, which, speaking through Judge Adams of the United States circuit court, in the form of an injunction, has commanded them to abstain from interfering in any manner with the running of mail cars on the various street car lines of the city owned by the Transit company.

The writ of injunction issued by Judge Adams is sweeping, and is made returnable May 26. It commands the strikers to refrain from doing anything that will delay or obstruct the operating of mail cars or the gathering and distribution of the mails. Everything prayed for in the petition for an injunction presented which the company would possibly have

the Parker Patriot by Fords, Howard & Hulbert was Nature's Miracles by Elisha Gray. This famous scientist has written a series of familiar talks on wonderful things which are subservent to the rule of law, more especially of Earth, Air and Water. It is a most interesting little book, written, as the author says, for those who have not, and who cannot have, the advantages of scientific education, and for young readers who will be helped by these plain, general views of topics which their text-books will give them in detail. For popular and school libraries and for the "general reader" who is not spoiled for everything but fiction, this book must be of especial worth.

Chief Justice Fuller Decides No Juris- ers of the state. diction Over Kentucky Governorship.

No Existing Emergency Calling For Interference.

Action In Beckham's Favor Not Likely to Be Contested by Republicans.

Washington, May 22.-The United States supreme court yesterday decided he Kentucky governorship case in the nterest of Beckham, affirming the deision of the Kentucky court of appeals. The opinion in the Kentucky case was not unanimous, some of the judges dis-

The opinion was handed down by Chief nissed for want of jurisdiction. He said he court should be the last to overstep he bounds limiting its own jurisdiction, and that the determination of cases of his character, contests for state office. nust necessarily be settled by the poitical branch of the government. That ranch had acted in the Kentucky case when the general assembly took jurisdiction. There was no appeal from the assembly's decision, which was favorble to Goebel and Beckham, except to the tribunal of the people, which tribunal, the chief justice said, was always in session. He also said the case was ourely a state case; that Kentucky wa n the full possession of its faculties as a ember of the Union, and that there was to emergency at this time calling for interference. Justices Brewer, Harlan, Brown and McKenna were the dissent-

The case of the contested Kentucky election came before the supreme court on an appeal from the decision of the Kentucky court affirming that J. C. W. Beckham was governor of Kentucky by virtue of the act of the Kentucky legisature, sitting as a contest board under the Goebel law, in volding Taylor's election on the face of the returns. The supreme court sustains the Democratic contention that it had no jurisdiction the Beckham contention being that the provisions of the Kentucky constitution and statutes governing the trial of contested elections for governor afford of the 14th amendment to the federal nstitution. Taylor contend the contest; that the governorship was property of which he could not be deorived, and in general that a conspiracy

Ladies and Gentlemen.—It has gone on recor that Madame Yale's Excelsior Hair Tonic is the vigorating its entire structure. It is antiseptic in character, as well as stimulating: its action upon the scalp and hair is truly wonderful, inasmuch as it has never been known in a single instance to fail to cure scalp diseases and to create a luxuriant growth of healthy, beautiful hair. It stops hair falling within twenty-four hours and brings back the natural color to gray hair in nearly every instance. It is not a dye; it is not sticky or greasy; on the contrary it makes the hair soft, youthful, beautiful and glossy; keeps it in curl. It is a perfect hair dressing, and can be used by ladies, gentlemen or children as a daily toilet requisite. Its influence is delightfully soothing. orating its entire structure. It was briefly noted in the Ledger of May 18, that Mayor Hall had written the street railway in relation to free transfers within the city limits and that unless assurance was given him that free transfers were granted by June 1, he should appeal to the Railcoad Commissioners.

The answer to the Mayors letter was received Monday, and as both letters are matters of public interest they are given in full:

May 17th, 1900. Mr. John R. Graham, President Quincy & Boston Street Railway Co., Quincy, Mass. DEAR SIR: I have waited some time to hear om you definitely relative to an agreement to rant Free Transfers within the city limits in ecordance with the request of the City Council Having received numerous promises, which the present time have not resulted in anything definite, I feel constrained to say to you hat unless I have an agreement from the Com panies which you represent by Monday, next, May 21st, granting Free Transfers within the city limits by June 1, 1900, I shall feel it my uty to take such action as will look toward June 1. e accomplishment of this object.

Very respectfully yours, JOHN O. HALL, Mayor.

A New Candidate.

Hon. John Shaw of Quincy may have other rival for the Republican Con-

A new name has appeared in the lists for Republican favor in connection with the congressional nomination in the 10th district, that of George B. Peirce of Milton. He is a young man, and probably personally unknown to most of the citizens in the district, a fact which is not always necessarily a disadvantage in the caucuses, for the voters sometimes tire of being confronted with the same aspirants for the same office, year after year.

"Mr. Peirce comes from stock which has been distinguished for high ideals of public service being a son of the late Edward L. Peirce, the biographer of Sumner, who served in the Legislature a few years since, and was a candidate for Congress a decade ago against John F. Andrew. He has been indentified with the anti-Atwood forces in the past, and the element in the party in Mr. Atwood's ward which proposes to contest his plans for a nomination should he become a genuine candidate shows signs of taking up Mr.

"It is understood that Mr. Peirce has been approached upon the subject, He is one of the 10th district alternates

HOPES ARE BLASTED

Boer Envoys Hear Government's Reply to Their R quest For Intervention,

President Sincerely Desires That War Will Speedily End.

But to Deviate From Policy of Impartial Neutrality Would Be Contrary to Our Traditions.

Washington, May 22.-Secretary of State Hay on Monday afternoon informed the Boer delegates that the president feels, in the present circumstances, no course is open to him except to persist in the policy of impartial South African republics.

The meeting between the delegates and Secretary Hay was brought about in the simplest manner. General O'Bierne had secured from the department a promise to entertain any credentials that might be presented. Monday morning a note came to the state department from the delegates asking that they be permitted to present them selves at the department. A prompt acquiescence was returned by Secretary Hay and at 2:30 the three delegates ap peared. They were unaccompanied, and William Gwinn, the secretary's messenger, showed the callers at once into the diplomatic room. Secretary Hay, accompanied by Mr. Babcock, his private secretary and stenographer, cordially greeted his visitors. Just what passed between them will probably never be exactly known, for when the meeting was over, after lasting an hour, the Boers in departing stated to a number of anxous newspaper men that they had, and would have, nothing to say as to what happened. For his part, the secretary of state was more communicative, but before making any statement made his way to the White House and consulted with the president. Then he gave out

"Messrs. A. Fischer, C. M. Wessels and A. D. W. Wolmarans, the delegates in this country of the South African republics, called today by appointment at the state department. They were cordially received and remained with the secretary for more than an hour. They laid before the secretary at much length and with great energy and eloquence the merits of the controversy in South Africa and the desire of the Boer republics that the United States should intervene in the interest of peace and British government."

The secretary of state here quoted the language of the president in his message to the congress last December wherein he stated that this government has maintained an attitude of neutrality in the unfortunate contest be tween Great Britain and the Tool of Africa, and that we should remain faithful to the precept of avoiding entangling alliances as to affairs not of our direct concern. Had circumstances suggested that the parties to the quarrel Decker and his affianced wife, Fannie would have welcomed any kindly exwould nave welcomed any kindly expression of the hope of the American purpose can be in any way binding upon the city. The Vaal River Will Probably Have Been Crossed by the British Forces.

Buller Presented With Trophy by Newcastle Residents.

Transvaal Government Announces Its Intention to Fight to a Finish.

London, May 23 .- Lord Roberts is again moving. The British infantry left Kroonstad Monday and headquarters were expected to leave yesterday The railway has been restored and the first train is due to arrive today.

The Boers are busy blasting for gun emplacements along the Rhonoster river. General De Wet commands, as General

The advance of Lord Roberts will probably be swift. It is the expectation of well-informed observers here that the Vaal river, 85 miles beyond Kroonstad, vill be crossed by the end of the week. General Buller, in a general order to his roops, congratulating them on the result of their 10-day operations, says they were only checked at Laing's Nek by a fresh commando sent from the Transvaal. General Clery, with a cavalry brigade, engaged the rear guard of the Boers at Laing's Nek Sunday, captured a number of wagons and took some prisoners. His artillery shelled the Nek. The Boers in their retreat laid waste the territory, blew up bridges and burned several houses, as many as six in Newcastle. The machinery of the Naviga-

The Boer chiefs, who now recognize the possibility that they will have o defend these cities, are preparing with in a critical condition. the utmost haste. The Boer spirit has been rising from a low ebb, and is now

ready for a steadfast resistance. Nevertheless, according to The Daily Chronicle, long messages in Dutch have been received by the British governmen by way of Amsterdam, in which President Kruger seeks peace. According to one account, President Kruger surrenders unconditionally; according to another he asks for terms.

Nothing new concerning the relief of Mafeking has come through. All of the accounts of the engagement on May 1 extol the bravery of the Canadians. Col onel Mahon's column arrived at the rendezvous, about one hour after Colone Plumer, showing with what accuracy the

> Pays His Respects to Those Who Compared Aguinaldo With Washington.

Washington, May 23 .- In the senate yesterday Mr. Spooner spoke on his bill providing that upon the suppression of the insurrection in the Philippines the government of the islands shall devolve upon the president until such time as ongress might direct otherwise. Notwithstanding the fact that he was almost too ill to stand, Mr. Spooner's effort was one of the notable speeches of the present session. He defended with characteristic vigor and eloquence the policy of the administration in the Philippines, maintaining that no other ers' attorneys instituted habeas corpus policy in the circumstances was possible, and that none other could have been adopted without dishonor to the country. Mr. Spooner took occasion at the out set to disclaim the argument in favor of permanent possession of the Philippines that they are very rich. "There is here n the senate and in the country at large no lust of empire. That argument is orthless to me and to our constituents, he said. This was a sharp rap at Sen

> ator Beveridge's speech He declared that when the treaty was first presented to the senate he almost decided to ve'e against it, as he did not wish the burden of the Philippines; but later, when he examined the question more closely, he could not see how the president could do anything else than demand the Philippines.

"Giving them back to Spain was no to be thought of-we had the example of Spanish rule too close to us to admit us leaving any other people in the hands conference and Dr. David E. Moore of of Spain, when an opportunity came to us to loose such a hateful bond. But for us, Spain would undoubtedly have resumed her sway in the Philippines. No one else would have prevented it."

All the great nations, he said, would have preferred Spain's retention of these Islands rather than to see a strife among themselves for them. Holders of Spanish bonds throughout Europe assisted in that sentiment. A LAWYER'S STORY.

His Experience With a Mean Client and an Honest Man.

James W. Harper, formerly judge in room 2, superior court, is fond of telling a good story on himself of how he eceived a fee that was entirely unexpected. Ten or 15 years ago Judge with considerable preference for the day to see the game be tween the Harper kept his office in the Vance block. One day he was consulted by a merchant of this city, who will be known as G. in the story. The merchant was badly embarrassed, as he owed about \$20,000, and the wholesale houses were pressing him. He came to much improvement over earlier games Attorney Harper for advice. The law time before come into possession o about \$1,500, which had been given her by her father. This money she had loaned her husband and it was invested in his business.

The attorney advised G. to secure his wife the first thing, and he did so. "Well, we finally got the matter settled up," said Judge Harper in telling the story the other day, "and G. and his wife started in business again. The creditors, of course, were losers to a certain extent, but I felt it my duty to advise the man to look after his fami ly first. I didn't see him for several weeks after the business was settled, wick, at shortstop, easily led his nine. I ought to have had at least \$200, I thought. G. didn't come around, and one day I sent him a note, asking him to call at my office. He came in a day or two, and I asked about my fee, stating that I would be willing to square up for \$100. I also recalled to his mind hits from Nickersons' bat and saved that I had performed a legal service for him to the best of my ability and The academy nine also played in good I thought I should be paid. As soon as form. Bennett and Doble were in the I finished my speech G. jumped up and started for the door. "'I haven't got time to talk about

that today,' he snapped as he went out Tate, in spite of his one error, did of the door. Of course I made up my mind that my fee was not an assured thing, and I let the matter run on for third base to first was unusually a few months. Finally one day I met accurate.

G. on the sidewalk in front of the Vance block, and I 'held him up.' asked him to come to the office, as I wanted to talk to him. He was in clined to be a little impatient and wanted to know if I couldn't do my talking where I was.

"'Well, I might, G.,' said I, 'but it is possible I might say some things that Doble, the last play closing the game you would not want the public to hear. "I think G. understood that he had better come to the office, and he signified his willingness to come with me. We came up stairs, and as soon as we The hardest hitting on the academy got into the office he drew a piece of ide was done by Bennett and paper from his pocket, and, throwing Molenaer, the former making three it down on the table, he remarked, 'Take that or nothing.'

"I picked up the piece of paper and saw that it was a note that had been given by a man named B. several years before. It had been outlawed long ago. The principal and interest amounted to something over \$800. I knew Mr. B. and remembered that he had become bankrupt several years before. I shoved the note in the drawer of my desk as a worthless instrument. A week or two later, however, I got to thinking about the matter and sat down to write B. a note, asking him to call at my office if he should hapo pen to be in my neighborhood. He came within a few days, and I showed

him the note. and it is perfectly good. Now, I'll say to you that within ten days I'll pay \$200 on that note and will settle the g remainder by paying \$100 or \$200 every month.' Of course I was amazed. I said to B. that I would only ask him to pay \$100, but he insisted that he would pay every dollar of it. Then I suggested that he only pay the prin-

"'No, sir,' he declared. 'I owe the interest, too, and, since I am making money now, I expect to pay every cent brought to bear upon the sugar, and, of it.'

"Well, to make a long story short, that man, within a few months, paid off every dollar that the note called for. A short time after he had finished paying the note G. came into my office one day. What do you think he said to me? He said he had understood that B. had paid off the note in full and, since I had only demanded a fee of \$100, he supposed I would pay over the remainder to him. Did I do and if we can possess our souls in pait? Not much. I simply recalled to G.'s mind that he had thrown an apparently worthless note on my desk with the suggestion that I 'take that or nothing.' G. scowled and walked out

At Loast, the Boer Envoys Did Not Present Any to State Department.

Will Now Direct Their Efforts Toward Public Sentiment.

President Repeats That United States Can Take No Further Action.

Washington, May 23 .- The state department does not expect to have any lelegation now in this city. Such interhange as occurred was unofficial, it is credentials giving them an official their talks with the officials.

The only sign of the possession by them of diplomatic powers was the inscription on the cards presented by them, indicating that each one of the delegates had been sent out as a ministe plenipotentiary by the Boer republics. It is surmised that if they have cre dentials conferring diplomatic power upon them the delegates have purposel; refrained from presenting them in orde to avoid a dislocation of their plans for the future. Having had reason to an ticipate the declination of the Unite States government to intervene in behalf of their republics, and having thus failed in the primary object of their nission to the United States, it is surnised that the delegates refrained from endeavoring to establish a diplomati character in order to reduce the liabilit o interruption in the propaganda they re about to conduct in the country at

Although the United States government has, beyond doubt, the power to stop this propaganda at any point and dismiss the delegates from the United States, yet it can be stated that there i no likeMhood of any such action being taken so long as the agitation is cor ducted by private individuals. But is said at the state department, the pre edent established in the case of Gene he agent sent to this country by French volutionists, would require the gov nment to peremptorily stop the pros

The country has absolute confidence in the administration, and knows that there are reasons - good ones -why the President and his advisers deem it wise for the Senate to defer action on the Nicaragua Canal bill until the next session. That these reasons are diplomatic is probable, as the bill, if it became a law in advance of the making of iron-land agreements with the two Central American countries through which the Nicaragua Canal will pass, would enable those countries to enforce extortionate

demands. In the argument on the tax rate bill for Boston it was argued by those opposed to the increase, that property in Boston is assessed one-third higher than outside, and that a tax rate of \$13.10 in Boston was equivalent to \$17.50 in other cities. The argument however does not hold unless the property is assessed above the selling price. Some property outside of Boston is assessed above what it will sell for even at private sale. Cotton Brokers Were Long, In Face of a Fast Falling Market.

Price, McCormick & Co. Are Forced to Assign.

Movements Ever Recorded.

New York, May 25 .- Announcement of he failure of Price, McCormick & Co. was made yesterday by the chairman of the New York stock exchange. The firm consists of Theodore H. Price, W. G. McCormick, R. M. Stuart-Wortley, Walter W. Price and George Crocker, the latter as special partner. The developments on the cotton exchange marked the culmination of one of the biggest bear movements ever recorded. The liabilities of the firm are estimated story.

at \$13,000,000. The failure is ascribed to the fact that the firm was long on cotton, in the face of a fast falling market. A notice on the doors of the offices of the company referred all inquirers to William J. Curtis and William N. Cromwell, assignees. Mr. Cromwell said that it was impossible to make any statement at present concerning the condition of the firm; that its business is very extended and covers several branch agencies. The total liabilities, he said, are about \$13,000,000, nearly all of which are secured. He added that a statement would be submitted to creditors at the earliest pos-

The firm is composed of Theodore H. rice, William G. McCormick, R. G. M. Stewart-Wortley and Walter W. Price with George Crocker of San Francisco as a special partner on an investment of \$500,000. The firm was organized Jan.

Early in the day rumors were current that a prominent firm was in trouble, and shortly before the official announcement of the suspension was made, it was generally understood that Price, McCor-10 cents mick & Co., was the Louse referred to. Prior to the formal announcement the cotton market had broken over 20 points under terrific selling for both accounts from all directions. The firm has long been regarded as the leading supporter of the market, and at one time it was said that they were going to put up August cotton to 10 cents. The decline of the past month, however, was against them, and despite their efforts they could not hold the market up.

Much of the business of the firm was in the cotton exchange at first, and its senior member and organizer was formerly of the firm of Hubbard, Price & Co.

At that time the older firm had a large southern business. The present firm controlled much of this southern stock business, and has been very active at times in stocks favored by southern perators, although this line of trade has peen far iess in volume than its regular commission business obtained through its wire service to outside cities.

FUN AT HARVARD COLLEGE Which May Ultimately Result In Trouble For

Those Who Participated.

Cambridge, Mass., May 25 .- The un-

dergraduates at Harvard are in an uproar of merriment, which may end in day morning. The game was between a scrub nine called "The Rounders" and a theatrical company from Boston. The excitement over the game was so great that lectures were deserted, and at the law school, where the classrooms overlooked the diamond, the lectures were abandoned. The collegians were de-

On the field the students, in all sorts of burlesque attire, cut up all manner of pranks, and the music, choruses and coaching combined to make the incident spectacular. Games are prohibited at Culmination of One of the Biggest Bear an hour earlier than 1 p. m., so the col-

legians are in for trouble. After the game there was a procession n which the students, rigged out in clothing of bright hues, acted as escorts to the actresses, and as the route of the parade was through the college yard practically the whole university tagged behind. Men piled out of lecture rooms and dormitories, one dropping from a second-story window to the ground i his haste, and fell into line. One cornet on a drag played "Fair Harvard" and another kept up a bugle call at the same time.

Some of the professors who looked or did not realize the situation until the sprinkling of Harvard sweaters told the

Nearly One Hundred Members of Paul Revere Post Have Passed Away.

Quincy Cemeteries.

Town Furnished Nine Hundred and Fifty-four Men for Defence of Union.

Quincy's record in the Civil war was a creditable one. We were then a town of 6,778 population, with 1300 voters, yet we furnished 954 for the defence of the Union in the 60's. The draft upon Quincy was 969, but the late Eben W. Underwood, who compiled the record of the town in the Civil war, says he is unable to account for the shortage of 15 men,

After the first call for volunteers, when Co. H of Quincy promptly responded, the drafts on the town were as follows:

April 16, 1861-81 for 3 years. May 3, 1861-78 for 3 years. June 17, 1861-143 for 3 years. May 28, 1862--75 for 3 years. July 4, 1862-114 for 3 years. Aug. 4, 1862-71 for 9 months. July 1, 1863-18 volunteers. July 17, 1863-99 for 3 years Oct. 17, 1863-29 volunteers. Feb. 1, 1864-25 volunteers. Mar. 15, 1864-64 for 3 years. May 19, 1864-16 for 3 years. June 15, 1864-7 for 3 years. July 6, 1864-73 for 100 days. July 19, 1864-48 for 1 year.

Dec. 19, 1864—26 for 1 year. The following "roll of honor" of Paul Revere Post 88, G. A. R., of showed a net loss of 10 to 14 points, hav- sault upon the 10-year-old daughter of Quincy is compiled by Past Commander Isaac M. Holt. CHIEF OF POLICE SUSPENDED.

Mayor of Pawlucket Demands Obedience Regarding the Lorraine Mill Strike.

Pawtucket, R. I., May 25.—The police protection question for the Lorraine mills is becoming decidedly complicated. Mayor Fitzgerald has determined to take the matter into his own hands, as he informed Chief of Police Rice this morning that he was suspended. On Wednesday evening a resolution was introduced be- McKinley's Administration fore the board of aldermen instructing Rice to have better police protection at the gates of the Lorraine mills. Mayor Fitzgerald was not in favor of such a move, as he does not believe the strike has reached a stage that demands further police protection.

It has an affinity for the human hair for nourishing and inaffinity for the human hair for nourishing and invigorating its entire structure. It is antiseptic in character, as well as stimulating; its action upon the scalp and hair is truly wonderful, inasmuch as it has never been known in a single instance to fail to cure scalp diseases and to create a luxuriant growth of healthy, beautiful hair. It stops hair falling within twenty-four hours and brings back the natural color to gray hair in nearly every instance. It is not adve; it is not sticky or greasy; on the contrary it makes the hair soft, youthful, beautiful and glossy; keeps it in curl. It is a perfect hair dressing, and can be used by ladies, gentlemen or children as a daily toilet requisite. Its influence is delightfully soothing. pence is delightfully soothing.

After all, she was nothing but a spoiled child, a butterfly whose joyous existence had been passed in the sunshiny gardens of life. Why should he expect her to divine instinctively. as he did, that some sad story must be connected with the lonely grave on the hillside, in which she saw only a reminder of unpleasant things to spoil her enjoyment of the summer? He had been strongly impressed by the hint of a tragedy, and when he was negotiating with the agents for the purchase of the deserted farm he tried to find out something of the history of the family to whom it had once belonged. But their dealings with the owner had been confined strictly to business, and past. The professor meant to pursue his inquiries when the proper time should come and they should have made the acquaintance of some of their

Meantime an army of workmen had transformed the old red farmhouse into a luxurious country home, and Mrs. Lennard, arriving the day before to take possession, was charmed and delighted at the taste and thoughtfulness her husband had displayed. Only, whether she paced the wide veranda on the front of the house or sat at the window in her own dainty morning grassy knoll a few rods distant, topped by the tall twin elms. Below it the run from an enemy?" land fell away to a rich, fertile valley and then far off in the distant west heights. No other point on the large estate commanded just such a ravishing prospect as that framed by the drooping branches of the old elms, and her first feeling of disagreeable surprise at finding a silent occupant already in possession was presently

The more she reflected upon it the greater grew her annoyance until she could think or speak of little else, to her husand's bewilderment and chagrin.

When he had smiled at her so indulgently after her wistful "Oh, Robert!" an idea darted into her mind, at which she took new heart.

"Surely something can be done about it!" she murmured, appealing to him. "Well, what, my dear? To be sure, we can have the house turned to face

"What does that mean?" asked Cyn thia in a hushed tone, awed not so much by the inscription as by her husband's emotion. He moved away from the grave a step or two and, seating himself in the long grass, drew her down to his side.

"It means that we can't be blind to the sorrows and sadness of other lives, little one. They rise up and confront us wherever we go. Very likely we shall never know anything more about Abner Pettis than we know now, but this glimpse of his history is enough to convince me there must have been they could throw no light upon the a reason why they laid him in this lovely spot. For instance, I quoted from She ran to the brow of the knoll and General Otis' report of Feb. 8, in which the statement was made that Aguinaldo had made a request that a neutral zone be established between the lines of the American and Filipino soldiers. Sidby side I placed a quotation from General Otis' telegram of May 1, in which he said that Aguinaldo had asked for no truce, and the statement that he had done so was misleading. I simply de grew the music. . The stars and stripes sired to point out that contradictory General Ot!s was an automatic liar. That is the term I should apply in the case of contradictory statements. I have not applied the term to General Otis in the way Senator Spooner implies. I think, moreover, it is legitimate for citizens of the United States to call attention to these contradictory statements of government officials."

Roberts Now Probably Engaged In Trying to Cross the Vaal River.

Movements of the Boers Are Enveloped In Mystery.

Baden-Powell Declines to Return to England to Enjoy a Rest.

London, May 23 .- Lord Roberts' ad- rived the crowd had dispersed. vance on the Vaal goes on apace. His ommander-in-chief's last dispatch was sent. Vredefort itself is 23 miles northwest of Vredefort Road station, 26 miles directly west of the railroad and only six miles south of the Vaal river.

General Hamilton has effected a june tion with Lord Roberts. The country in front of them is clear of Boers to Viljoens Drift. The Boers are evacuatng all their positions south of the Vaal iver, and 5000 have already crossed to the north bank. Probably General French's cavalry is already reconnoitering the fords of the Vaul.

War office observers expect that the next dispatch from the field marshal will be dated in sight of the Transvaa frontier. Bennet Burleigh, wiring to The Daily Telegraph from Fredefort Thursday evening, says Lord Roberts would doubtless cross the Vaal Saturday or Sunday. The British outposts were then at Erste Geluk, nine miles north of Vredefort and 26 miles south of the Vaal river. The railway is much damaged.

While the British in overwhelming force are thus rapidly approaching the Transvaal, the movements of the Boers are enveloped in mystery. The last Pretoria newspaper to reach Lourenzo Marquez was a week old. Every one seeking to cross the Portuguese border from the Transvaal is searched for newspapers and letters. Dispatches and mail letters containing even harmless references to the war are suppressed from the Transvaal during the last 10 days has come by word of mouth.

According to these oral reports the Boers were quarreling among them-

selves. Transvaal paper money was circulating at 80 percent discount. Major General Baden-Powell declines to act on the suggestions of his friends that he should return to England for a from Mafeking, dated May 20, say:

BUSINESS QUIET IN THE EAST.

Present Conditions Will Probably Exist Until Weather Becomes More Seasonable.

New York, May 26.-Bradstreet's says: Trade is, if anything, quieter, and prices are lower than a week ago, while efforts toward a readjustment of productive capacity to present conditions are noted in several lines of industry, notably iron and steel and lumber. Unsettled conitions in the cotton trade and a large failure has tended to weaken quotations in several lines of speculative business. Rather better crop reports and the backward demand for cotton goods are of course partly responsible for the sharp break, but statistically the staples remain very strong. Crop reports are,

With honorable pity it is felt that these inhabitants of Cuba and other islands have never had any opportunity to learn what self-government requires, how to judge men or how to make public opinion a barrier against crime. These people are in charge of the United States as its wards. Toward the protection of their rights and interest there will be directed a far keener activity of public opinion in the state than has ever been given to the affairs of any territory. It is a point of pride to teach these inhabitants what good government is. It is a point of honor to devote more pains and care to the defense of helpless wards than might be given to home affairs. In that state of mind the people will expect much from everybody who represents them, and will obtain much. -New York Tribune.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning May 27-Comment by Rev. S. H. Doyle. Topic.-Have patience.-Math. xviii, 21-35. THE PARABLE.

Christ has recently said, "If thy brother shall trespass against thee, go and tell him his fault between thee and him alone." This leads Peter to ask, "How oft shall my brother sin against me and I forgive him - till seven times?" The Pharisees said three times, and Peter no doubt thought seven was a generous number, but Jesus replied, "I say not unto thee seven times, but until seventy times seven"that is, no definite number, as three or seven, but always have a spirit of willingness to forgive. This truth Christ then illustrates in the parable of "The Unmerciful Servant," which has been selected for our study. A king calls his servants to account. One owed him 10,000 talents, a great sum, which he could not pay. The king therefore ordered him and his family to be sold to pay the debt. The servant begged humbly for more time, saying, "Have patience with me, and I will pay thee all." The king, going further even than he asked, generously forgave him. But this servant went out and found one who owed him and brutally demanded what was owed, and in spite of his fellow servant's appeal he refused to have mercy, but had him cast into prison. The king was told. He recalled his pardon and had the unmerciful servant delivered into the hands of the tormentors until he could pay.

THE INTERPRETATION.

The interpretation of this parable is easily made if we except one particular which must be borne in mind. The king is God; men are his debtors. None of us can pay what we owe God. God will forgive us only when we are willing to forgive our fellow men who have trespassed against us. The parable does not teach that God gives a pardon and then recalls it, as the king did. Christ simply means to illustrate that unless we forgive God will not forgive us. The illustration is human and hence imperfect, but the one truth taught is clearly evident,

THE APPLICATION. Two practical lessons may be drawn from this parable that will apply and

enforce the topic. 1. God is willing to have patience any particular store.

Put It In Your Bible. Here is a handy table, furnished by The Christian World, which it would be well to cut out and copy for refer-

ence in your Bible studies: A day's journey was about 23 1-5 miles. A Sabbath day's journey was about

an English mile. A cubit was nearly 22 inches. A hand's breadth is equal to 3%

inches. A finger's breadth is equal to about one inch. A shekel of silver was about 50 cents.

A shekel of gold was \$8. A talent of silver was \$538.30.

A talent of gold was \$13,809. A farthing was 3 cents. A piece of silver, or a penny, was 13

cents. A mite was less than a quarter of a

An ephah, or bath, contained seven gallons and five pints.

Serious Thoughts. Make time for serious thoughts. Let

no day pass without some memory of solemn things. Each morning as you rise remind yourselves that "God spake these words and said." Each evening as you lie down to rest let God's angels close the door of your heart on thoughts of purity and peace. The soul that has never lived face to face with eternity is a vulgar soul. The life that has never learned the high law of holiness is a ruined and a wasted life.-F. W. Farrar.

> A Prayer. O Eye that needeth no repose, Look down upon my hand And see if I am using it

To do as Thou hadst planned! O Ear that hears all vibrancy. Attend upon my voice And stop the idle parlance there

Unmeet to be Thy choice! O Mind that knows infinity, Be critic of my own And temper all its transient thoughts

O Strength that rules unnumbered orbs, Yield me enough each day
To keep my hand, my voice, my mind,
Above the claims of clay!

To righteousness alone! -- New York Sun, -Philadelphia Ledger.

A SERIES OF RIOTS

The Principal Feature Thus Far of the St. Louis Rai way Employes' Strike.

Neither Side Shows Any Inclination to Yield.

Shot and Wounded In Other Ways.

20th day of the street railway strike and the end seems as far away as ever, both the Transit company and its employes protection. In consequence, there not being enough police to guard the 800 or more cars usually operated, less than a quarter of that number has been run by the company over only a part of its 22 livisions and lines. Since the eighthm visions and lines. Since May 8, when the strike began, there have be n numerous collisions between the police and the strikers and the latter's sympathiz-

Hardly a day during that time has passed without somebody being wounded by bullets or injured by flying missiles and police clubs. The list of casualties since the strike began shows four persons shot and killed, 22 wounded by bullets and 50 or more injured in other ways. Two of the killed were innocent Several of the wounded are in a critical condition and may die.

It is said by the strikers that less than 50 of their number-3325- who struck have returned to work. These, with the street car men imported from other cities, are operating the Transit's com pany's cars. It is asserted that at least to of the imported men have joined the

The points of issue between the company and its striking employes have been agreed to except that of reinstatng all the men who went out of their old positions. The company refuses to displace the men hired since the strike began while the strikers decline to sign any agreement that does not give all the old men their place again. A meeting of citizens has been called

for tomorrow afternoon for the purpos of discussing plans for the amicable settlement of the strike.

As the result of an encounter last night ullivan, James Sullivan and Patrick neighboring woods for several weeks. O'Connell, strikers, were passing through Lafayette park they were approached from the rear and fired upon by three men said to be in the company unloy. One of the bullets passe hrough Philip Sullivan's right lung, giving him a mortal wound. Jame Sullivan received a ball in the left chee and O'Connell was shot through the right eg. Accounts of the affair differ, som bystanders claiming that it was a de iberate attempt to assassination on the part of the company's new employes while others aver that it was nothing nore or less than a pitched battle be tween the two factions. A riot call was at once sounded, but the three unknown nen had made good their escape by the time the police arrived on the scene.

HOW MEMORIAL DAY IS CELEBRATED IN SCOTLAND.

Brave Scots Who Fought In the Civil War Are Not Forgotten-Statue of Abraham Lincoln In an Edinburgh

As each succeeding Memorial day omes around the American residents of Edinburgh assemble in the old Calton burying ground, at the statue of Abraham Lincoln, and hold ceremonies in memory of the Scottish-American the cruiser Des Moines is to be laid is soldiers who fell in the American civil war. This is the only spot on the globe should see the keel of this vessel laid. where Memorial day services are held regularly outside of the borders of the United States, and great interest attaches to it on that account.

The ceremonies are in charge of the United States consul in Edinburgh and will this year be attended by hundreds of Américans now traveling in the which in itself is quite an undertaking British isles as well as many subjects of the queen who are in hearty sympathy with the United States. Hundreds of floral tributes will be placed around the statue, which has been thus decked Aug. 21, 1893.

While the statue was erected through whom were of Scottish descent, it is practically unknown to most people in that country. That regular ceremonies similar to those held in every cemetery in the United States each year in memory of the heroes who fell in defense of the Union take place in this beautiful walls of this historic old city, around which the bitterest civil war of the world's history centered, is well worthy of cognizance.

Like many another memorial to the greatness of American institutions and riumphs, this statue of the martyr president was the outgrowth of a humble story, carried out by the good will and the well earned dollars of men who owe their fortune to the stability of American institutions and the fulfillment of Lincoln's ideas that the Union

should be one and indivisible. In the summer of 1890 Mrs. McEwan, vidow of a Scottish-American soldier, called on Mr. Wallace Bruce, United States consul at Edinburgh, to aid her in securing a pension from the gov ernment in Washington, as her husand had recently died. The proper proof was obtained and the pension the consulate Mrs. Bruce chanced to be present and became interested in her Mrs. McEwan told Mrs. Bruce how

she and her children had worked for 5 shillings a week to keep a husband and father from the poorhouse and gave, with singular pathos, the account of his last illness; how he loved to have the old gun near at hand. The same having remained uncalled for by able to push it through at the short it is a mere theory, a pleasant dream, present: Messrs. Thomas C. And at last, when the poor soldier, after long months of suffering, died, they found the gun under the coverlet beside him, pressed

Mrs. Bruce asked where he was bur ied, that she might go with Mrs. Mc-Ewan and place some flowers on his grave, although Memorial day had passed, but the widow answered, with tears in her eyes: "The ground in the common field is all level. I could not mark the spot. In fact, the next Sabbath after his death I visited it with the bairns, and we found another mourning group had possession. Another body was being buried in the

same grave. This story, told in the beautiful border language of the Tweed and the Yarrow, suggested to Consul Wallace Bruce the idea of a burial place in Edinburgh for Scottish-American soldiers. He wrote to several American friends and talked with others who visited at the consulate. All heartily approved of the plan. Some time afterward Mr. Bruce was walking on the banks of the Tweed near Peebles with Lord Provost Russell of Edinburgh.

He told McEwan's story and the following day wrote a letter to the lord provost, magistrates and town council asking for a plot in one of the city cemeteries. The request was cordially granted. It then occurred to the consul that the spot should be marked with a memorial worthy of the site in the very heart of the beautiful city. Through Mr. Bruce's endeavors

enough money, about \$6,000, was subscribed in this country, and the statue of Lincoln was dedicated Aug. 21, 1893. Miss Bruce, who unveiled the monument, was attired in a flowing white costume, her hair encircled with a band of gold, representing Columbia. The monument was loudly cheered by The continued case of George W. White was all present, and the sculptor was com pelled to bow his thanks and appreciation many times.

Consul Bruce in formally turning over the monument to the custody of the corporation of Edinburgh spoke of on Rose McCarthy at Quincy. Case continued the great civil wars of Scotland and urged that the placing of the Lincoln monument should be a further tie between Great Britain and America. The monument itself is a work of art. > JOHN A. LOGAN IN BATTLE. The Very Incarnation of War-His

Power Over Men. It has been tersely said of Julius Cæsar that the secret of his success in the treaty between Great Britain and battle lay in his power of "projecting it was of John A. Logan. In action Logan was the radiant incarnation of war. With Logan on the front of the line, carrying his hat in the air on the point of his sword, determined to rous the enemy, it was hard for any of his men to be less than good soldiers. He seemed at times to be drunk with enthusiasm, which was the only form of inebriety possible to him in the army

as he was very temperate. The air of battle seemed to mount fect. But he never lost control of himself in the wildest delirium of war He kept his command under absolute control always and seemed gifted with the power of omnipresence while his troops were in action. He rode his lines constantly and always in front. Once he thought he saw a little falter ing of a small portion of his troops under a heavy fire, and he called to one of the rooms were evidence of a flourish- of his staff officers to "stick a flagstaff FRANK F. CRANF. in the ground with a flag on it and se if the boys wouldn't rally round it." And they did. He would stop in the in tervals of battle to talk to the boys of Office, 4 Chestnut St., Quincy, Mass his old regiment, the Thirty-first, and to tell them they had been doing s well that he would write home and tell their mothers what good soldiers they were.-St. Louis Globe-Democrat.

A Nation's Tribute to Valor. Somebody has said that a Gothic ca thedral is a petrified religion. On the lines of this quaint aphorism it may with equal force and propriety be contended that the graves of the Union soldier dead tell the story of the most momentous epoch in her history. Responsive to the call of duty and the mandate of patriotism, they had fought A freight train was wrecked as it was and toiled and bled to preserve intact dedicated to the proposition that all men were created equal," and the flowers that we strew so lavishly upor their graves are as much an expression of the nation's gratitude as they are a beautiful tribute of personal respect TABLET Co., for their memory.-Philadelphia Times.

Rear Admiral Kempff is the senior squadron officer described in the dispatch, and his visit to Taku, the nearest point to Pekin attainable for large vessels, has attracted much attention. It is understood that there is already a formidable fleet of European warships gathered at Taku, and since the withdrawal of the Wheeling, the American fleet has been unrepresented at that point. While prepared to act concurrently with, though independently of the European powers in the protection of the life and property | sion trying to devise means to protect the of foreigners in China, Admiral Kempft foreign residents. has not at present any intention of makng a hostile demonstration in the Pei-Ho river. It is more probable that he is at Taku solely with the purpose of getting as near as possible to Minister Conger and the American legation at Pekin, and it may be that he is simply placing himself in readiness to rapidly dispatch a marine force from his ship to Pekin to guard the American legation, just as it was protected two years ago when riotous conditions prevailed near the Chinese capital.

Bay State Legislature.

Boston, May 29.—After a long debate the house yesterday killed the bill placing telephone and telegraph companies under the control of the gas and electric light commissioners. At the close of the session Speaker Myers held a conference with a number of the members on the question of ordering an investigation into the charges of corruption in connection with the vote last week on

the Westminster chambers bill. The house on Wednesday refused by a close vote to pass the bill legalizing the present height of the building, 96 feet, which is six feet above the limit allowed by law for a building in Copley square. The next day the house reconsidered this adverse action and passed the bill. The names of 21 members who changed their position relative to the bill have been prominently printed in a number of newspapers, and their action severely ommented upon. COMMANDER EATON

Describes Naval Battle off Santiago to High School Pupils.

Seldom, if ever, has a more interestng patriotic service been held at the High school than that of Monday. The school and visitors were prepared for an interesting program, but the surprise feature was the out of town speaker, who proved to be Commander Joseph G. Eaton of the Resolute, one of the vessels that took a prominent part in the famous naval battle off Santiago. The crew of the Resolute took a prominent part in the rescue of th crew of the sinking Christobal Colon.

The program opened with a chorus,

'The Old Flag,' by the school, and was followed by Col. Charles H. Porter, who gave interesting reminiscences of the Civil war. A Festival Hymn by the school, followed, and then came Commander Eaton. He described the Ordinations are always events of battle of Santiago very vividly; the mportance among church people, but long seige of preparation; how the there is more than ordinary interest in ships guarded night and day the the event of this evening as Mr. Arthur entrance to the harbor; how the big Ward Bailey is a Quincy young man of battleships went within a mile of the exemplary character. Reared and forts at night, to the great admiration trained among us, no one would of the English officers. He then dehesitate to recommend him to any scribed the coming out of the fleet and church seeking a bright pastor and the battle. The first seen was the smoke curling up back of the hills then the Marie Teresa came in view, and the battle was on. The speaker thurch on ordination, viz: Elbridge then explained the difference between Clapp, Franklin Hardwick, Richard D. battleships, amored cruisers and other good summer weather may be expected. Chase, Ernest W. Branch, Cyrus T. ships of war, also explaining the different weights of the guns and the projectiles they threw, and finally that the success of this battle was due to the excellent discipline which Admiral Sampson had instilled into the whole Mrs. Ida Waterhouse of Squantum

The most marked attention was paid to Commander Eaton's address and all would have been glad to have had him talk longer than he did. "To Thee, O Country," by the

chool chorus, was well rendered. The exercises closed by the presenta ion to the school by the class of '99 of statue of "Winged Victory." The resentation speech was made by Miss Ledger readers. Elizabeth Dunn, and it was received in ehalf of the school by Mr. Harper, he principal.

These stoves appeal to the woman of the house, who bears the burden of cooking. They are the most wonderful invention of the age. Contrast if you will, working in an over heated kitchen over a red hot stove, and cooking in a kitchen as cool as any room in your house. With one of our Blue Flame Stoves you have a fire piping hot in a twinkling, ready to bake, roast, boil or fry. No dust, no ashes, no coal, no wood. A purified, clear blue flame like gas, made from common oil. They are as unlike the old style oil stove, as night is unlike day. do any cooking on a WICKLESS BLUE FLAME OIL STOVE that you can do on any stove. It is the best hot weather stove for a large family as well as the most convenient and the most economical for beginners in housekeeping. The blue flame is intensely hot, but the heat is concentrated in the cooking, not diffused through the house. It will not smoke pots, pans and irons placed directly over the flame. It is absolutely safe, very convenient and the cleanest stove made.

In her address, Miss Johnson spoke of the successful branch meetings at Wollaston and Quincy Point. The former may eventually take up some particular line of work and the latter are planning a sewing-class for the summer months to finish with a picnic.

The three kindergartens of the past year will be continued, and a fourth is hoped for. Miss Trask who has been the principal gartener since the work began, is obliged to leave, much to the regret of the association, but her place will be taken by Miss Clara Merrill, who has already proved so successful in kindergartening, that the association can feel no anxiety about the change.

London Newspapers Consider That the War Is Practically at an End.

London, May 31 .- Yesterday at noon the British were only about two hours' march from Pretoria, and the Boer military forces had abandoned the city. This intelligence comes from the Reuter agent at the Transvaal capital, and from the Earl of Rosslyn, in a press dispatch. The two messages left about

The Daily Mail's dispatch from Lord Rosslyn follows:

Pretoria, Wednesday, May 30, 11:40 two hours without resistance. The president has gone to Waterval Boven. Burgomaster De Sousea is authorized o receive the British. He, with an inuential committee of citizens, including hief Justice Gregorowski, has been apointed to preserve life and property luring the inter regnum.

If Rathbone Attempts to Carry Out Intentions He Will Be Placed Under Arrest.

Havana, May 31.-Estes G. Rathbone the director of posts, now under suspension owing to the postoffice scandal, has informed his friends that he intends to leave the island on Saturday. If the authorities carry out their original plan he will not be allowed to leave here, but the authorities hitherto have been unwilling to take.

La Lucha, discussing the extravagance of Rathbone, says: Mr. Rathbone had higher authority than his own or every cent he expended, but, owing to party loyalty, he has kept quiet under insults. It is not likely that he will submit much-longer.

Even so the blessings which have come to this republic and which we enjoy today because of your faithful and heroic service and the sacrifice of those who sleep beneath the scd have taken the keenness from our sorrow and the lessons of faith and hope have robbed our grief of its poignancy and left only that sad recollection which time cannot efface, and only that glad reunion when time shall be no more can wholly remove.

The Grand Army of the Republic is gradually, growing smaller and smaller in its number. This is inevitable and

we cannot expect anything else. We who have borne the heat and ourden of those terrible days have done our part. The pain and death, the grief and loss the agony of those bitter days is past and we must look the inevitable squarely in the face and accept the certainty that our places will soon HOUSES BOUGHT AND SOLD. be vacant, and the work of life, must fall to other hands.

But I am not so much disturbed by ranks of the Grand Army of the Republic as I am anxious that this beautiful custom of this floral offering at the graves of the heroes of the Nation shall be preserved in all its fulness and beauty.

Three years ago, from my acquaintance with the militia of our State, I spoke to you of the evidences of the lacking when you had come to that was defauted. time when you could not respond to the call of your country to bear arms.

That then, as in '61, should the call come, that the same spirit which was so alive in '61 would show itself again. I little thought that so soon would the occasion arise to test the truth of that claim, and when the bugle blast was sounded how grand was the response.

There was just the same spontaneous aprising as in the old days, and we

have with us today, in the presence of the Spanish War heroes, the same testimony of the safety of the republic as we see the same vigor and prime o young manhood learned in the art of war and enlisted in our defense.

" 'Tis a far, far, cry from the Minute Men And the days of the buff and blue. To the days of the withering And the hands that hold it true.

To the isles of the China sea, But ever the same, the father and son Forever the same are we. For the blood of the sons at Bunker Hill, Through countless fierce campaigns,

'Tis a far, far, cry from Lexington

Is as red and eager in peril still In the depths of the childrens veins, And the heart and the eye support the hand, No matter what odds there be. Ever the same thy sons, O land,

Forever the same are we. Not a Valley Forge, nor a Wilderness, Not the hail of a Cuban step Can take one jot from our fearlessness Who daily thine honor keep.

We carry the flag through varying scenes From the sign of the old pine tree To the stars and stripes in the Philippines Forever the same are we.

And the lad with the first unshaded mouth Fights as his father fought, And the man from the North and the man from the South

Fought as their fathers fought. And whether from city or town we came We answer the call with glee, For heroes uprise at the beat of the drum

Forever the same are we. The band rendered another hymn, when the usual wreaths were deposited, the red by S. V. C. Jacobs in the name of Fraternity; the white by J. V. C. Webb in the name of Charity: the blue by Adjutant Holt in the name of Loyalty; and the red, white and

blue by Commander Warner. A salute of 18 guns in three rounds was fired by the G. A. R. squad, and taps were sounded by two buglers, one being in a distant part of the ceme tery. Chaplain Wilder gave the benediction, and the band played America."

AT THE SOUTHER LOT. Francis L. Souther camp, S. of V., conducted the services at the grave of Francis L. Souther, the first soldier from Quincy to die in the Civil war, in the presence of his widow and daughters. The opening prayer was by the chaplain of the camp, and Commander Holmes spoke briefly. The S. of V. firing squad fired a salute of 12 rial is just as impressive and just as guns. Taps were sounded by the incere as when it was first observed, buglers, and Rev. C. W. Wilder gave When our nation is in the height of the benediction. The president of the ts beauty, we bring these bright and L. A. S. and the commander of the AT THE UNKNOWN LOT.

It is antiseptic in character, as well as stimulating; its action upon the scalp and hair is truly wonderful, inasmuch as it has never been known in a single instance to fail to cure scalp diseases and to create a luxuriant growth of healthy, beautiful hair. It stops hair falling within twenty-four hours and brings back the natural color to gray hair in nearly every instance. It is not a dye; it is not sticky or greasy, on the contrary it makes the hair soft, youthful, beautiful and glossy; keeps it in curl. It is a perfect hair dressing, and can be used by ladies, gentlemen or children as a daily toilet requisite. Its influence is delightfully soothing.

Boston, May 31.-The Boer envoys were warmly welcomed to this city Wednesday afternoon, for their appearance, as they stepped from the train at the South station, at 3 o'clock, was the signal for tremendous cheering, shouting and waving of hats by the St. Louis ..... 6 2 0 0 0 1 2 0 0-11 10 thousands who had asembled there. They were escorted by members of the joint committee of the city government, who had met them at Providence and accompanied them to this city. Taking carriages, the party were driven directly to Boston Common, the streets through which they passed being lined with people, who greeted the visitors with cheers. At the foot of Soldiers' hill, on the Common, the party alighted and proceeded to the soldiers' monument, where Mr. Fischer, on behalf of the envoys, placed a handsome wreath upon the base of the shaft, accompanying the

Mr. Fischer called attention to the fact that the monument upon Soldiers' hill was in commemoration of the brave deeds of men who fought for what they had nearest their hearts. They had died for their country and for the cause of freedom, and there had been sorrow, but on Memorial day there was a general reoicing, for by their work was freedom enjoyed. The speaker said that the struggle in South Africa was on; that hey were fighting for the same principle, and that sorrow was now their portion, but in after years a shaft would be erected typifying the struggle, and on each anniversary, with similar rejoicing,

would the day be observed. The wreath bore the following inscription: "A tribute from the Boers of the South African republic and the Orange Free State to the soldiers and sailors of Boston who fought to maintain the republic and keep the Union whole. May

From the monument the procession proceeded around the monument, through to Beacon and School streets to the Parker House, where the envoys are to remain during their stay in the city.
